|   |   |   | <b>Joy Handley and Scott Laursen</b>                |                    |                  |
|   |   |   |   |                    |                  |
| <b>Sensitive Species Recommendation</b> <span style="float: right;">(Please check 1 box below)</span>   |   |   |   |                    |                  |
|   |   |   |   |                    |                  |
| <input checked="" type="checkbox"/>   | <b>R2 Sensitive Species (SS)</b>        | <b>Not R2 SS, but should be considered for other Emphasis Species Lists</b> |   |                    |                  |
|   |   |   |   |                    |                  |
| <input type="checkbox"/>  | <b>Not R2 SS and Not of Concern Now</b> | <b>Insufficient Information Available to make a recommendation</b>          |   |                    |                  |
|   |   |   |   |                    |                  |
| <b>Recommendation Rationale</b>   |   |   |   |                    |                  |
| <p><b>Not common anywhere in range. Threatened by livestock grazing, exotics, and habitat disturbance in R2. In habitat that could be easily impacted by livestock if used heavily – needs to be monitored to doublecheck palatability as fescues are often “ice cream” plants to livestock. S2 in WY and not ranked in CO. Very few population counts yet found on the Bighorn, Shoshone, Arapaho-Roosevelt, and Medicine Bow.</b></p> |   |   |   |                    |                  |
| <p><b>John Proctor and Gay Austin</b></p>   |   |   |   |                    |                  |
|   |   |   |   |                    |                  |
| <b>Name/Title</b>   |   |   | <b>Date</b>   |                    |                  |
|   |   |   |   |                    |                  |
