<b>Sensitive Species Recommendation</b> (Please check 1 box below)						
<input type="checkbox"/> <b>R2 Sensitive Species (SS)</b>		<input type="checkbox"/> <b>Not R2 SS, but should be considered for other Emphasis Species Lists</b>				
<input checked="" type="checkbox"/> <b>Not R2 SS and Not of Concern Now</b>		<input type="checkbox"/> <b>Insufficient Information Available to make a recommendation</b>				
<b>Recommendation Rationale</b>						
--Good distribution in R2 and widely distributed outside R2 --Recent change (1997) in taxonomy split this into 2 separate taxa; needs check in USDA Plants database to confirm status --Population and habitat trends not well known, but typically found in montane wet meadow habitat.
