<b>Sensitive Species Recommendation</b>			(Please check 1 box below)			
<input type="checkbox"/> <b>R2 Sensitive Species (SS)</b>		<input type="checkbox"/> <b>Not R2 SS, but should be considered for other Emphasis Species Lists</b>				
<input type="checkbox"/> <b>Not R2 SS and Not of Concern Now</b>		<input checked="" type="checkbox"/> <b>Insufficient Information Available to make a recommendation</b>				
<b>Recommendation Rationale</b>						
<p><b>This species appears to be rather rare in Region 2, based on the known occurrences. But the available information is insufficient to determine whether or not there is a regional viability concern due to the risks associated with such a limited number of occurrences or to management actions in its habitat. Additional information should be collected and the species should be reconsidered for sensitive status.</b></p>
