

**Land and Resource Management Plan
Shoshone National Forest**

September 25, 2009

Amendment No. 2009-01

Reason for this Amendment

The purpose of this amendment is to amend the Forest Plan with the direction from the Comprehensive River Management Plan (CRMP) for the Clarks Fork of the Yellowstone Wild River Corridor. The direction from the CRMP will replace the management direction for the river corridor that was found in Chapter III of the Forest Plan.

The CRMP was adopted and the Forest Plan was amended as part of the environmental assessment completed in September 2009.

As a result of this amendment, the direction for management of the river corridor is now contained within the CRMP Chapter 4 Management Direction (September 2009).

Superseded Forest Plan direction

Chapter 3

page III-7	6 th goal listed under Recreation, Cultural and Visual
pages III-22-23	Wild and Scenic River management
pages III-234-239	Management 10D (Clarks Fork of Yellowstone River – Wild River)
