IDAHO

Clearwater National Forest

Project	District	Description	Contact
Dinner Bucket	Palouse	Wildland urban interface fuels reduction	Kara Chadwick; 208-875-1701
Gezel	North Fork	Improve forest health; reduce the risk of stand replacement fire; improve aquatic ecosystems	Douglas Gober; 208-476-8223
White White	Lochsa	Improve forest health and aquatic ecosystems	Craig Trulock; 208-926-6400
Where's Walde	Lochsa	Improve forest health and aquatic ecosystems	Craig Trulock; 208-926-6400
Polar Ice	Lochsa	Improve forest health, reduce risk of wildfire	Craig Trulock; 208-926-6400
Bear Stew	Palouse	Improve forest health, reduce hazardous fuels	Kara Chadwick; 208-875-1131
Interface Fuels	Lochsa	Wildland urban interface fuels reduction	Craig Trulock; 208-926-6400
Cabin	Lochsa	Fuels reduction; improve fish habitat	Craig Trulock; 208-926-6400
Dead Canyon	Lochsa	Fuels reduction; improve area ecology	Craig Trulock; 208-926-6400
Clarke Mountain Trail System Watershed Protection	North Fork	Trail maintenance activities to reduce soil erosion and stream bank degradation	Adam McClory; 208-875-1734
Preacher-Dewey Watershed Protection	North Fork	Trail maintenance and re-alignment to reduce soil erosion	Adam McClory; 208-875-1734
Clearwater Weeds	Palouse	Forest-wide noxious weed treatment	Suzanne Qualmann; 208-875-1739
Fly Hill Road Drainage Improvement	North Fork	Construct drainage features to reduce sedimentation in critical bull trout habitat	Anne Hall Connor; 208-476-8210
Coyote Creek Road Decommissioning	North Fork	Decommission nine miles of road within critical fish habitat	Anne Hall Connor; 208-476-8210
Boundary Junction Restoration Planting	Lochsa	Plant blister-rust resistant Western White Pine and Western Larch in Boundary Junction fire area	Mark Klinke; 208-476-8300
CFLRA Fish Passage 2011	Moose Creek	Remove existing culverts which are barriers to fish passage	Anne Hall Connor; 208-476-8210
Forest Road 250 Slides	North Fork	Repair two slides on FR 250	Travis Mechling; 208-476-8210
Seminole Ranch	Moose Creek	Treat noxious weeds and plant native species at	Suzanne Cable; 208-926-8928

September 30, 2011

Project	District	Description	Contact
Restoration – Weeds		Seminole Ranch property	
Powell WUI	Powell	Wildland Urban Interface fuels reduction near Powell Ranger Station, Lochsa Lodge, ID F&G residence	Matthew Young; 208-942-0344
West Fork Corral Meadow Restoration	Palouse	Implement watershed restoration activities in Corral Creek watershed	Meg Foltz; 208-875-1717
Nat Brown Exclosure	Palouse	Replace electric fence that protects meadow	Guy Chislett; 208-476-8228
Cougar Creek Exclosure	Palouse	Replace electric fence that protects riparian area	Guy Chislett; 208-476-8228
Abes Animal Machine Piling	Palouse	Fuels reduction through machine piling	Alan Carlson; 208-875-1709
Pig Wallow Mulching	Palouse	Wildland Urban Interface fuels reduction near Helmer, ID	Alan Carlson; 208-875-1709
White Pine Mulching	Palouse	Hazardous fuels reduction near Sanders, ID	Alan Carlson; 208-875-1709
Elk Creek Dispersed Site	Palouse	Restore water quality, re-establish native plants and restore fish habitat in Elk River, Idaho municipal watershed	Meg Foltz; 208-875-1717

Flathead National Forest

Project	District	Description	Contact
Condon Firewise	Swan Lake	Wildland urban interface fuels reduction	Steve Brady; 406-837-7501
Paint Emery Logs #1	Hungry Horse	Road rehabilitation; prescribed burning; sediment reduction; instream restoration; noxious weed control	Betty Kuropat; 406-758-3529
Paint Emery Logs #2	Hungry Horse	Road rehabilitation; prescribed burning; sediment reduction; instream restoration; noxious weed control	Betty Kuropat; 406-758-3529
Pain Emery Firewood	Hungry Horse	Road rehabilitation; prescribed burning; sediment reduction; instream restoration; noxious weed control	Betty Kuropat; 406-758-3529
Hungry Horse (West Glacier Fuels)	Hungry Horse	Wildland urban interface fuels reduction	Betty Kuropat; 406-758-3529
Trails Fuels Stew	Glacier View	Wildland urban interface fuels reduction	James Barnett; 406-387-3805
Pierce Fuels	Swan Lake	Fuels reduction adjacent to private property	John Ingebretson; 406-837-7518
Holland Fuels	Swan Lake	Fuels reduction adjacent to private property	John Ingebretson; 406-837-7518
Island Fuels	Swan Lake	Reduce risk of catastrophic wildfire	Steve Brady; 406-837-7501
East Shore	Swan Lake	Wildland urban interface fuels reduction	Steve Brady; 406-837-7501
Condon Fuels	Swan Lake	Firewise education; fuels reduction	Tony Willits; 406-837-7546
Six Mile Stewardship	Swan Lake	Wildland urban interface fuels reduction	Steve Brady; 406-837-7501
Cedar Spoon	Glacier View	Reduce risk of catastrophic wildlife	Heidi Trechsel; 406-387-3806
Blankenship Fuels	Glacier View	Reduce risk of catastrophic wildlife	James Barnett; 406-387-3805
Beaver Lake South	Tally Lake	Wildland urban interface fuels reduction	Jim Reuter; 406-758-3522
Lost Mountain	Tally Lake	Wildland urban interface fuels reduction	Jim Reuter; 406-758-3522
Cooney McKay	Swan Lake	Reduce hazardous fuels	Keith Konen; 406-837-3805
Hemlock Elk	Swan Lake	Reduce hazardous fuels	Keith Konen; 406-837-3805
Desert View	Hungry Horse	Wildland Urban Interface fuels reduction	Paul Donnellon; 406-387-3827
Belton Fuels	Hungry Horse	Wildland Urban Interface fuels reduction	Paul Donnellon; 406-387-3827
Hay Mor	Hungry Horse	Reduce hazardous fuels; part of Red Whale	Paul Donnellon; 406-387-3805
Lion's Paw	Swan Lake	Thin stands to reduce risk of beetle mortality	Keith Konen; 406-837-7516
Nyack Fielding	Hungry Horse	Reduce hazardous fuels; part of Middle Fork Fuels	Paul Donnellon; 406-387-3805
Red Whale	Hungry Horse	Wildland Urban Interface fuels reduction	Paul Donnellon; 406-387-3805

September 30, 2011

Project	District	Description	Contact
Round Bug	Tally Lake	Thin stands to reduce risk of beetle mortality near ski area	Dave Clay; 406-758-3536
Meadow Smith Agreement	Swan Lake	Fuels reduction activities to enhance elk habitat	John Ingebretson; 406-837-7518
Middle Fork Fuels	Hungry Horse	Reduce hazardous fuels along Middle Fork Flathead	Paul Donnellon; 406-387-3805
Porter Mount Watershed Restoration	Swan Lake	Road maintenance to improve road conditions; enhance fish habitat	Rich Kerr; 406-837-7500
Coal Creek Waterproofing	Glacier View	Remove culverts in Coal Creek; protect bull trout habitat	Pat Van Eimeren; 406-387-3863
Forest Weed Control	Forest-wide	Treat noxious weeds along roads and gravel pits	Tris Hoffman; 406-758-3510
Reid Creek Watershed Restoration	Tally Lake	Reclaim road in Reid Creek; improve stream channel and fish habitat	Dave Clay; 406-758-3536
Wildlife Shrub Planting	Tally lake	Plant native shrubs in old timber sale areas to enhance wildlife habitat	Laura Holmquist; 406-758-3501
WBP Cone Collection	Forest-wide	Collect whitebark pine cones to obtain seed for future planting to enhance ecology of area	Melissa Jenkins; 406-758-5333
Good Creek Elk Habitat Improvement	Tally Lake	Site preparation in preparation of burning to improve elk habitat	Laura Homlquist; 406-758-3501
North Fork Lost Creek Bull Trout Habitat	Swan Lake	Remove culverts to improve fish habitat	Beth Gardner; 406-837-7508
Shorty Creek Restoration	Glacier View	Decommission roads to improve fish habitat	Pat Van Eimeren; 406-387-3863
Island South Restoration	Swan Lake	Restore Dayton Creek drainage	Elizabeth Hill; 406-837-7543
HH/SB Vistas	Hungry Horse	Thin vegetation along FR 895 to enhance visuals	Michele Draggoo; 406-387-3827
Cold Creek Fish Passage	Swan Lake	Install 2 "fish friendly" culverts in tributaries of Cold Creek	Beth Gardner; 406-837-7508
Boojack RAC			
Cygnets Weeds	Swan Lake	Noxious weed treatment	Liz Hill; 406-837-7543
Horse Ridge Prescribed Fire	Spotted Bear	Reduce hazardous fuels through prescribed burning	Jim Flint; 406-387-3845
Beaver Wetlands Restoration	Swan lake	Weed spraying and replanting with native trees and shrubs	Liz Hill; 406-837-7539
Battery Creek	Spotted Bear	Restore threatened fish habitat by removing culvert	Ken Hinzman; 406-387-3838

September 30, 2011
