Coal Creek Road to Remain Closed through November 11

Coal Creek Road, Forest Road #317, located on the Glacier View Ranger District, will remain closed to public use through November 11th. The closure is near mile mark 3.5.

Cyclone Creek, Forest Road #909, off Hay Creek Road can be used as an alternate route around construction. During this project, it will not be possible to drive the loop from Big Creek, Forest Road #316, to Hay Creek, Forest Road #376.

This project is to construct a curtain wall to drain and stabilize the area, which has experienced slumping in recent years. Additional time to complete the project is needed due to recent rain events and due to a project modification.

For more information, please contact the Hungry Horse - Glacier View Ranger District at 406-387-3800.
