- 6:45 Motorized Watercraft Inspection Program/AIS Prevention update (Dennis Zabaglo)
- 6:55 Future of Basin-wide AIS program, 2012 program feedback request (Ted Thayer)
- 7:10 Question and Answer (ALL)

Please note:

- A Question and Answer period (20 minutes) will follow the presentations. Please withhold any requests for questions until the end.
- The forum will be recorded so that we can better share information with partners and those who cannot attend.
- Presenters: Please either send your PowerPoint to pbrumis@tahoercd.org beforehand or arrive by 4:45 and bring a memory stick. YouSendIt.com can be used for large files (5+ megabytes). If you created your presentation on a Mac, please directly insert any graphics as copy/paste can create image formatting problems and your pictures may not be displayed.
- Please time your presentations wisely. We got a lot of positive feedback for staying on time for the last forum. There will be a timekeeper holding signs to remind you of when you have 5, 2 and 1 minute remaining.

Thank you for participating!
