A tablet is a great Navigation tool.

Using a Tablet to Navigate
A Tablet or Smart Phone with the Avenza PDF Maps App and the MVUM’s downloaded onto it is a very useful and valuable tool.

More folks are using a tablet to navigate, (See picture, center). This makes navigating a breeze. With the built in GPS you will know your location at all times and the routes that are open for OHV use. You can mark and comment on special interest waypoints. With the built in camera you can also reference pictures to the waypoints you create.
