Assessment of Need and Enforcement Plan

1. Background. Many of the black bears frequenting and living in and around the Mountainair and Sandia Ranger Districts of the Cibola National Forest (specifically, the Sandia and Manzano Mountains) have become habituated to human food and have become a nuisance and safety concern. An ongoing education program has been aimed at informing the public about proper food storage and disposal of garbage. Unfortunately, some people have ignored the information and improper food storage has led to the recent removal (relocating elsewhere, and in many cases, destruction of the habituated bear) of some black bears in the Mountainair and Sandia Ranger Districts. An order is needed to be able to cite persons unwilling to comply with proper food storage methods.

2. Intent of Subpart B order. This order is written to provide for public safety and wildlife protection in the Mountainair and Sandia Ranger Districts.

3. Enforcement Plan. The following activities will occur in order to implement this special order in a manner that results in public acceptance and safety:

Appropriate Staff including Law Enforcement Officers Forest Protection Officers Cibola National Forest recreation and wildlife employees	By March, 2012

For implementation in the 2012 visitor use season, a component will be added to the Interpretive schedule focusing on black bear behavior (including proper food storage) and appropriate wildlife viewing etiquette. In support of campground/recreation site hosts, FPOs/LEOs will continue to respond to food storage problems at campsites and day-use areas.
