PO Box 308  
Quemado, NM 87829

Dear Jim,

This letter will amend your current Annual Operating Instructions for the Agua Fria Allotment in accordance with your discussion with Monte Topmiller, Rangeland Mgt. Specialist on November 21, 2011.

As documented in your current AOI, a pasture rotation will be developed for the dormant part of the grazing season in late September, or based on summer forage growth and which pastures are most suitable for dormant use by livestock. As per your discussion with Monte, the West Pasture best fits these criteria and will be used through the end of the grazing year (February 28<sup>th</sup>).

If you have any questions please do not hesitate to contact Monte Topmiller or Sara Marta at (575) 773-4678.

Sincerely,

*/s/ Susan D. Kennedy*
