

## FINAL STEP 5 SOCIAL STANDARDS (12/18/08)

		5 OPPORTUNITY ZONES (from Step 2)				
12/18/2008	SOCIAL INDICATORS (Step 3):	PRISTINE	PRIMITIVE	SEMI- PRIMITIVE	ROADED NATURAL	CONCENTRATE D USE
		<b>MOBILITY - (system trails, user trails, rivers)</b>	<b>1) Trash</b>	No #'s. Employ visitor feedback and 80/80 rule----->		
	<b>2) # People Encountered</b>	No #'s. Employ visitor feedback and 80/80 rule----->				
	<b>3) Max Group Size</b>	6 (off trail only)	NA	10 (on trail wilderness)	NA	NA
	<b>4) Effectiveness of signs</b>	NA	NA	Employ visitor feedback. 80/80 rule----->		
<b>STATIONARY - OVERNIGHT USE (campsites)</b>	<b>1) Trash</b>	15% micro	15% micro	20% some	20% some	20% some
	<b>2) Max # People/Campsite</b>	See note below✦				
	<b>3) Distance to System Trail</b>	NA bc no system trails	NA bc no system trails	See note below✦		
	<b>4) Proximity to each other</b>	See note below✦				
	<b>5) Human Waste</b>	0	0	2%	2%	2%
<b>DESTINATION AREAS - DAY USE (dest. pts, rock shelters, climb areas)</b>	<b>1) Trash</b>	15% micro	15% micro	20% some	20% some	20% some
	<b>2) Max # People Encountered (per area)</b>	5	8	No number, subject to visitor feedback and 80/80 rule		
	<b>3) Climbing Bolts</b>	No new	No new visible, allow as authorized	Allowed as authorized, subject to visitor feedback and 80/80 rule		
	<b>4) Chalk</b>	No persistent, subject visitor feedback & 80/80		Allowed as authorized, subject to visitor feedback and 80/80 rule		
	<b>5) Graffiti</b>	No new	No new	No new	No new	No new
	<b>6) Human Waste</b>	0	0	2%	2%	2%
<b>QUALITY OF RECREATIO N EXPERIENC E</b>	<b>1) Parking and Adequate Facilities</b>	Determine baseline #'s - how many parking spaces and how often full? Employ visitor feedback to determine if a problem.				
	<b>2) Recreation Outfitter/Guide Permits</b>	Apply all LAC resource and social standards to recreation outfitter guides				
	<b>3) Noise from other Recreationists</b>	Determine baseline #'s by employing visitor feedback (is this a problem?). Upward trend of visitors perceiving this as problem triggers management action.				
<b>SAFETY AND WELFARE</b>	<b>1) Personal Safety</b>	Determine baseline #'s - how many incidents per year? Upward trend in visitors perceiving this as problem triggers management action.				
	<b>2) Criminal Activity</b>	Determine baseline #'s - how many incidents per year? Upward trend in visitors perceiving this as problem triggers management action.				
	<b>3) Search &amp; Rescue</b>	Determine baseline #'s - how many incidents per year? Upward trend in visitors perceiving this as problem triggers management action.				

**80/80 RULE:** By employing some sort of participant visitor feedback mechanism relative to recreational activity (commercial cards, websites, visitor surveys, etc...), we may be able to determine perceptions about some of the above indicators and standards. If 80% of the participants are satisfied 80% of the time, then there is no need to modify or change a particular social indicator or standard. For example, there is no number standard for trash along trails (littering is illegal, what we are asking is at what point does visitor dissatisfaction get so great as to trigger a management action). If, through the use of a visitor participation system, we find out that less than 80% of the visitors are satisfied with the amount of trash observed along trails then some sort of management action should be employed to get that visitor satisfaction number up to 80%. There will be a need to flush out a survey to address all questions - similar to campsite criteria.

✦ **These camping social standards** will need to be defined with development of camping management plan to address where to designate sites & where to allow dispersed camping. Forest Supervisor will also make final decision on management action concerning minimum distance from system trails for designated campsites. See Step 7 for more

**Note:** Originally, the LAC group had developed an opportunity zone called "Critical Habitat Resource". After much deliberation, the LAC group decided to drop this zone. The Tight Hollow area moved from Critical Habitat Resource zone to Pristine. The Sargent's Branch Critical Habitat zone moved to Concentrated Use.
