

# UMPQUA REVIEW

NATIONAL FOREST

QUARTERLY SCHEDULE OF PROPOSED ACTIONS

**JANUARY 2012**

Within this Schedule of Proposed Actions (SOPA), you'll find information that covers environmental analyses in progress on the Umpqua National Forest. This publication is our way of keeping you informed and involved in our plans and progress. We focus these activities on protecting, conserving, using, and restoring forest ecosystems. Each activity lists a contact person if you want additional information or to share ideas.

The National Environmental Policy Act (NEPA) guides us in making informed decisions regarding the environment. Through NEPA, we complete environmental analyses so the public and responsible official for each project are aware of the effects on the environment. The objective of NEPA is to make better decisions and document those decisions. The process is dynamic and flexible. If new information is discovered, we will update the information in this quarterly report.

The Umpqua National Forest distributes the SOPA four times a year: January, April, July, and October. It is also accessible on our website at: <http://www.fs.fed.us/r6/umpqua> under Land and Resources Management, and you can find all of the Forest Service's SOPAs at <http://www.fs.fed.us/sopa>.

Sincerely,

*/s/ Alice B. Carlton*
