

BE WILDFIRE SAFE!!

PUT YOUR CAMPFIRE DEAD OUT!!

FOLLOW THESE CAMPFIRE RULES

- If possible, use an established campfire ring, clearing it of debris.
- Build campfires away from overhanging branches, steep slopes, rotten stumps, logs, dry grass, pine needles and leaves.
- Pile extra wood away from the fire.
- Clear the area down to bare soil.
- Keep your campfire safe and small, especially when it's windy.
- *Never leave your campfire unattended.*
- Do not bury your coals as they can smolder and re-ignite later.
- Drown the fire with water, stir remains, add more water and dirt, and stir again. If it's cool enough to touch, it's cool enough to leave.
- Make sure your fire is *dead out* before leaving.
