Volunteer help is the only way these trails are maintained or created. **You do not have to be a CTHA or SORBA member to participate.**

Everyone is welcome - young or old, hiker or biker or equestrian. Work at your own pace - every little bit helps. We need your help and would appreciate your coming to just one workday a year. We'll provide lunch to those who RSVP, water and tools.

Let's get the Jake/Bull Mountain System trails into great shape and show the Forest Service that you support the trails here. You'll have fun, make new friends and have a sense of accomplishment that you've done your part to keep these trails open. Together we'll have the best place to ride in north Georgia!
