

HEALTHY KIDS ~ HEALTHY FORESTS!!!! EDUCATIONAL PROGRAMS AND STEWARDSHIP PROJECTS

The Bitter Root Resource Conservation and Development (RC&D) and the Bitterroot National Forest are excited about offering free educational programs and public land stewardship projects to youth and families in the Bitterroot Valley! Our excellent staff is available to coordinate classroom presentations, field trips and land stewardship projects for youth ages preK-12. A field trip can take place at almost any outdoor location such as school grounds, a community park, a river access, or a forest location. We are able to create lessons and activities to meet your specific needs.

PROGRAM TOPICS

- * Fire Ecology * Aquatic Studies * Trees * Air Quality * Invasive Plants
- * GPS * Compass * Mammals (various) * Birds * Insects * Snowshoeing
- * Nature Games * Teambuilding * Nature Hikes * Wilderness Survival

STEWARDSHIP PROJECTS

- * Planting Native Plants and Trees * Water Quality Testing * Post-Fire Restoration
- * Weed Pulls * Trail Maintenance * Campground Clean-ups ...And More

Have you heard about our winter Snow Snoops program?

This program includes a winter field trip and a pre and post classroom visit.

Choose one or more topics: snowshoeing, winter survival, animal adaptations, animal tracking, plants in winter, snow crystals, orienteering with GPS or compass, or watershed health.

If you are interested in scheduling a field trip or presentation, please contact:
