EXPLANATION OF LEGEND ITEMS

Roads Open to Highway Legal Vehicles Only:
These roads are open only to motor vehicles licensed under State law for general operation on all public roads within the state.

Roads Open to All Vehicles:
These roads are open to all motor vehicles, including smaller off-highway vehicles that may not be licensed for highway use (but not to oversize or overweight vehicles under State traffic law).

Trails Open to All Vehicles:
These trails are open to all motor vehicles, including both highway legal and nonhighway legal vehicles.

Seasonal Designation:
This symbol, used in conjunction with one of the other road or trail symbols, indicates that the road or trail is open only during certain portions of the year. Refer to Seasonal and Special Designation Table for further instructions.

Dispersed Camping:
This symbol is used along with a designated road or trail to indicate limited motor vehicle use within a specific distance of that route, solely for the purpose of dispersed camping. The dots indicate where this activity is permitted. Refer to the Dispersed Camping Table for specifics.

Other Public Roads and Trails:
Interstate
Highways, U.S., State
Other Public Roads
Other Public Trails

These symbols are used to show routes the Forest Service does not have jurisdiction over and has not designated for motorized use. These symbols are part of the reference layers showing connections to towns and cities outside the forest boundary.

PARKING

Motor Vehicles may be parked within one vehicle length from the edge of the road surface when it is safe to do so without causing damage to NFS resources or facilities, unless prohibited by state law, a traffic sign, or an order (36 CFR 261.54).

Dispersed Camping Table

For all roads in this table, where designated, motorized access for dispersed camping is allowed for the same time of year as the adjacent designated route. Current regulations which prohibit "stopping any natural feature or other property of the United States" and "camping and leaving in a damaged condition any such road, soil, or segment thereof" remain in place.

NOTE: Mile post symbols on the ground may not be in Forest user possession. The Fremont-Winema National Forest generally installs mile post signs only on the high standard roads, typically those designated for highway legal vehicles. Mile post signs should not be expected on all roads. Measurements displayed on mile posts start at 0.000 miles and are generally for one-mile increments along higher-standard portions of the road.

Existing routes - a route with an established history of passenger vehicle use, as indicated by a roadbed width of greater than 50 inches, the predominance of compacted soil, and minimal vegetation growing in the travel way. New resource impacts (indicated by single or double tracks through vegetation) are not considered existing routes.

Existing campsites - an area obviously used by campers that usually contains a rock fire ring and minimal ground vegetation as the result of motor or foot traffic.
