FISHLAKE NATIONAL FOREST

The Fishlake National Forest, first known as the Fish Lake Forest Reserve, was established by President William McKinley on February 10, 1899. The Forest rises as a green oasis above the junction of I-15 and I-70 in central Utah. The Forest spreads through nine counties with 1,540,572 gross acres. There are four Ranger District locations at Fillmore, Loa, Beaver and Richfield. The

mountains and plateaus that form the Fishlake invite you to enjoy the highly spectacular and widely varied scenery, and enjoy cool climatic relief from the hot desert valleys. The Forest provides 76 streams and 60 ponds and reservoirs for fishing.

The Fish Lake-Johnson Valley areas, near the east side of the Forest, receive 25 percent of the recreation use on the Forest. This is a 13,700 acre area with 3,000 acres of lakes and reservoirs, four campgrounds, seven picnic areas, one boating site, and three resorts. Several species of trout, splake, and large Mackinaw can be caught year-round. A full range of public services and facilities is available year-round from the three resorts.

The Tushar Mountains with loop roads, places for camping, snow skiing, fishing, hiking, sight-seeing, and dramatic landscapes also affords solitude along the Skyline National Recreation Trail on the southwest end of the Forest.

The Fishlake National Forest is the home of the Paiute ATV Recreation Trail, welcoming visitors from around the United States and many foreign countries. The local communities and the Forest host three ATV Jamborees during the summer season.
