

1# - PRODUCT DESIGNATION (07/1998)

The Forest Service designated timber or forest products for cutting or harvesting prior to award of this contract. The designated timber or forest products is confined to the sale area and has been designated in the following manner: _

Green painted bands on tree boles (lying on ground) within Dimond O Campground and blue paint on middle and ends of logs of various decked wood outside of campground. See Map.

Unless otherwise agreed, no operations between 7pm and 7am.

3 - LOAD TICKETS (07/1998)

The Purchaser shall complete and return assigned load tickets according to the Contracting Officer or designee's written instructions. Unused load tickets shall be returned to the Contracting Officer or designee at termination date.

4 - PRODUCT IDENTIFICATION (11/1999)

Before removal from the sale area, unless the Contracting Officer determines that circumstances warrant a written waiver or adjustment, (a) all products 8 feet or more in length and 1/3 or more sound shall be hammer branded on each end that is 7 inches or more in diameter and (b) all domestic processing products 8 feet or more in length and 1/3 or more sound shall be painted with a spot of highway-yellow paint on each end that is 7 inches or more in diameter. Each paint spot must be not less than 3 square inches in size.

The Contracting Officer shall assign brands and brands shall be registered with the State, if the sale area is within a State that maintains a log brand register. The Purchaser will furnish and apply highway-yellow paint of a lasting quality (oil-base or equivalent).

All hammer brands and/or highway-yellow paint must remain on logs until they are domestically processed. If the identifying marks are lost, removed, or become unreadable, they shall be replaced. The Purchaser may remanufacture products into different log lengths. Except for logs remanufactured as part of the mill in-feed process immediately before processing, remanufactured products must be re-branded with the assigned sale brand and repainted with highway-yellow paint, unless otherwise agreed to in writing by the Contracting Officer. For such remanufactured products, the Contracting Officer may approve use of a brand to be used exclusively as a catch brand, in lieu of the assigned sale brand.

6 - EROSION CONTROL (07/1998)

The Purchaser shall: (1) not operate equipment when soil conditions are such that excessive damage will result, as determined by the Contracting Officer or designee; (2) construct erosion control structures, as needed to control erosion as determined by the Contracting Officer or designee; (3) repair promptly any existing erosion control structures damaged by the Purchaser's operations; (4) complete seasonal erosion control work prior to suspending operations; and (5) perform other soil erosion control work that may be required under this contract.

7 - STREAMCOURSE PROTECTION (07/1998)

Streamcourses that are subject to these requirements are shown on the sale area map. Unless the Contracting Officer or designee agrees in writing otherwise, the Purchaser shall use the following measures to protect streamcourses: (a) Purchaser's operations shall be conducted to prevent debris from entering streamcourses; (b) Purchaser shall not otherwise haul or yard trees or products across streamcourses unless fully suspended and; (c) Purchaser shall not operate wheeled or track-laying equipment in streamcourses, except at crossings designated by the Contracting Officer or designee. In event the Purchaser's operations cause debris to enter streamcourses, the Purchaser shall remove such debris as soon as practicable, but not to exceed 48 hours, and in a manner that the Contracting Officer or designee agrees to in writing that will cause the least disturbance to streamcourses.

13# - ROAD MAINTENANCE (06/1999)

The Purchaser shall pay for road maintenance, commensurate with the Purchaser's use, in accordance with the Contract Road Maintenance Requirements Summary and Road Maintenance Specifications. Costs are included in associated charges listed on Page 1.

If the Purchaser elects to use different roads than those listed in the Contract Road Maintenance Requirements Summary, the Contracting Officer or designee shall determine the Purchaser's commensurate share of road maintenance and revise associated charges listed on Page 1.

See Table A

Sale Name: Dimond O Fuelwood

13A# - SLASH DISPOSAL (11/2001)

Purchaser shall dispose of slash, which is limbs, tops, and unutilized portions of trees designated for cutting, resulting from their activities. Slash disposal consists of the following treatments: _

Clean up: Any residual residue resulting from the campground removal operations including branches, bole wood, and adjacent broken brush this is larger than 1 inch in diameter and at least 3 feet long is considered to be logging slash.

Lop/scatter 12" is permitted within the campground where slash is generally left within 12 inches of the ground and scattered to break up fuel concentrations.

For the single tree across road 1S38Y: Slash removal or hand piling is required within 50 feet of roads. Piles shall be at least 4 feet tall to avoid creating more piles than necessary. Piles shall be located at least 8 feet from residual trees and brush. A 3 foot wide fireline to bare mineral soil is required around each pile. Lop/scatter 18" is permitted outside of the 50' zone where slash is generally left within 18 inches of the ground and scattered to break up hazardous fuel concentrations. Anticipate 1-2 piles maximum.

14A# - FIRE PRECAUTIONS (12/2005)

Purchaser and their employees shall take immediate and independent action to prevent and suppress forest fires on the Sale Area.

Purchaser shall follow all applicable state fire regulations. Listed below are specific fire precautionary measures which shall be applicable and are included or in addition to state fire regulations. Unless otherwise agreed in writing by the Contracting Officer or designee, Purchaser shall:

- a) maintain effective muffler systems or approved spark arresters on exhausts of all internal combustion engines used in Purchaser's operations;
- b) furnish and maintain in quantities and at locations to be determined by the Contracting Officer or designee, tool boxes, fire extinguishers and fire tools to be used only for suppressing forest fires. Contracting Officer or designee shall approve tools and fires extinguishers to be used;
- c) remain on the sale area for a least 2 hours after cutting to be sure that a fire has not started.
- d) conduct operations according to the Project Activity Level for that day. Purchaser shall obtain activity level information daily from the Groveland District Ranger's Office. Operations permitted by Project Activity Levels are:

- Project Activity Level A - Cutting and hauling allowed
- Project Activity Level B - Cutting and hauling allowed
- Project Activity Level C - Cutting and hauling allowed
- Project Activity Level D - Hauling allowed, no cutting after 1:00 PM (Hoot Owl)
- Project Activity Level Ev - No cutting, hauling allowed, unless a variance is agreed upon
- Project Activity Level E - No cutting, hauling allowed
