

Public Land Center Salmon-Challis National Forest and the Bureau of Land Management

Transplants

This program provides people the opportunity to harvest transplants on Public Lands.

The permit allows the removal of up to 12 transplants maximum per household in a calendar year. You may mix any combination of transplants if you do not exceed the maximum 12 transplants per household limit.

This permit is good for any species on the Salmon-Challis National Forest and Bureau of Land Management. Only trees less than 6 feet in height may be removed. No digging within 300 feet of streams, lakes, or ponds. Back fill in the hole level to slope after removing the tree. Trees shall not be removed from within tree plantations, campgrounds, or within 100 feet of major roads. ALL SALMON-CHALLIS NATIONAL FOREST TRAVEL PLANS RESTRICTIONS APPLY. Maps and all other included materials received with this permit are considered a part of this permit and therefore binding.

A permit and load tickets are required. A permit and load tickets are required to cut, gather and transport transplants on Public Lands.

| Product (Personal Use) | Minimum Rate | Minimum Product per Permit | Minimum Permit Fee |
|--|--------------|-------------------------------|--------------------|
| Transplants (12 Trees maximum per house hold/yr) | \$5.00 | 4 Trees | \$20.00 |

Equipment and access: All vehicles are restricted to established roads. Use of mechanical equipment for digging or skidding transplants is not permitted without Forest Service approval. Do not cut trees that have been marked with paint or tags.

Information needed to purchase permit: To purchase a permit the following information will be requested: name, physical address, identification number, vehicle information (year, make, model, color, and license plate number of vehicle being used to haul poles), in addition to number of transplants needed.
