Hillsboro, N.M. 88042

Dear Randy and Denise,

This letter serves as an amendment to the Kingston Allotment Annual Operating Instructions (AOI) for the 2012 grazing season.

Based on your conversation with Shane Shannon on February 27, 2012, due to bear activity you observed last year and are expecting this year near the Kingston Pasture area you have requested to change your pastures rotation as per the following:

I hereby amend your Annual Operating Instructions as follows:

Pasture Rotations:

| Pasture | Number | On Date | Off Date |
|------------------------|--------|---------|----------|
| North Trujillo | 200 | 03/01 | 06/30 |
| Kingston | 200 | 07/01 | 10/30 |
| Shipping | 200 | 11/01 | 11/14 |
| Cave Creek | 200 | 11/15 | 02/28 |
| South Trujillo | Rest | | |
| Log Cabin/South Percha | Rest | | |
| Mineral | Rest | | |

This pasture rotation schedule will depend on range readiness, available water, weather condition, permittee needs and wolf/livestock interactions. Changes to the grazing rotation must be approved by the Forest Officer in advance. An “**amended**” AOI must be developed to reflect the approved changes.

If you have questions, please contact Shane Shannon or me at (575) 894-6677.

Sincerely,

/s/ LARRY D. COSPER
Black Range District Ranger
