

## Facilities Management Direction

**Table C-6** displays management objectives for developed facilities by alternative. Sites in the Hells Canyon Wilderness are listed first followed by sites in the nonwilderness portions of the HCNRA for each RAA. Sites along the Wild and Scenic Snake River (MA 8) sites are located at the end of the table. The table lists the type of site (recreation, administrative, historic), site name, Management Area (MA) of the site, type of structure, number of structures, whether or not the site has a site plan, the overall management objective, the development level, the maintenance level, and the fire suppression priority for each site.

Refer to **Chapter 3, Recreation Settings and Experiences**, for a map of the RAAs. A detailed description of the current condition of each RAA is located in **Appendix D, Tables D-1 and D-2**. MA descriptions from the *Forest Plan* are listed in **Chapter 1** along with a map illustrating the management areas across the HCNRA.

An explanation of the development level and maintenance level definitions is located in **Tables C-2f and C-2g**. The differences in development levels and maintenance levels are displayed by alternative below. The fire suppression priority is common to all alternatives. Further details explaining the priorities related to fire protection are located in the **Wildland Fire Management Policy** section of this appendix in **Tables C-21 through C-25**. Refer to **Table C-3** for a complete description of the ROS setting indicators for each RAA and likely developments that would be proposed in the future to meet the objectives of each of the alternatives.

Refer also to **Tables C-7a and C-7b** following this table for information regarding water rights and uses at these developed sites.

The effects of each alternative are described in detail in **Appendix D, Tables D-3 and D-4** based on the proposed development and maintenance levels.

**Table C-6: Management Objectives for Facilities by Alternative – Hells Canyon Wilderness**

Type of Site	Site Name	MA	Type of Structure	Number	Site Plan	Management Objective	Development Levels and Maintenance Levels					Fire Priority
							Alternative A	Alternative B	Alternative E-modified	Alternative W	Alternative N	
<b>01 Sheep Creek/ 08 Granite Creek: No Facilities</b>												
<b>02 Dry Diggins</b>												
Administrative	Dry Diggins Lookout	MA 4	Fire Lookout	1	No	Old lookout site, currently not in use.	Development Level 1, Maintenance Level 2	Development Level 1, Maintenance Level 1	Same as Alternative B	Same as Alternative B	Same as Alternative B	5
Historic	Hibbs Cow Camp	MA 4	Chimney	1	No	Historic ruins	Determine eligibility for historic register. Disposition dependent on findings.	Same as Alternative A	Same as Alternative A	Same as Alternative A	Same as Alternative A	5
<b>03 Sheep Lake/ 05 Baldy Lake/ 06 East Face: No Facilities</b>												
<b>07 Horse Heaven/ 09 Lakes Basin</b>												
Administrative/ Historic	Horse Heaven Cabin	MA 4	Cabin	1	No	Administrative use for operational support and safety	Development Level 1, Maintenance	Same as Alternative A	Same as Alternative A	Same as Alternative A	Same as Alternative A	1
