All dates provided in this update are subject to change based on weather, flooding, road conditions, public health, and safety concerns.

Firewood permits for the Logan and Ogden Ranger Districts are available to purchase now. Permits this year allow harvesting of wood that is dead and standing or dead and down. A permit will allow you to harvest wood within the areas shown on the 2023 Logan and Ogden Firewood Cutting Areas Map. All permits sold are valid until November 15, 2023, but permits could sell out before then. Come and get yours now!

The forest is green, and the wildflowers are beautiful.

</table>
Campgrounds:
Campgrounds are concessionaire operated by the Utah Recreation Company. For additional information about campgrounds please call 385-273-1100 or visit www.recreation.gov.

Reservations:
Reservations can be made up to 4 months in advance for single sites, 12 months in advance for group sites. Please visit www.recreation.gov for more information.

Dispersed Camping:
Visitors may camp for up to 14 days in any 30-day consecutive period in areas designated for dispersed camping. Dispersed camping along US Highway 89 in Logan Canyon is prohibited. Please see the Logan Ranger District Motor Vehicle Use Map for dispersed camping designations.

Logan Cave:
The cave is gated closed to public entry. The cave was closed on October 1, 1997 to ensure the viability of a rare and special biological community of Townsend's Big-Eared Bats that is located in Logan Cave. The bats are particularly vulnerable to human disturbance during their periods of mating, hibernation, and maternity colony, which runs from about October to August each year. The Big-Eared Bat is listed as a sensitive species by both the Forest Service and Utah Division of Wildlife Resources. To aid with protecting this species during their vulnerable period, it is prohibited to go into or within 250 feet of the mouth of the Logan Cave.

Certified Weed Free Hay:
To prevent the spread of noxious weeds into vulnerable ecosystems on National Forest System lands, hay, straw, and mulch must be certified weed free.
