

# PETITION

We, the undersigned, oppose the Virginia Department of Forestry's proposal to close off access to over 180 miles of National Forest Roads. The Forestry Service is trying to block easy access to thousands of acres of land by closing down roads, and as sportsmen and taxpayers of the Commonwealth of Virginia; we cannot allow this to happen. Sportsmanship in the Commonwealth generates thousands of dollars each year in hunting and fishing license. If the Department closes down access roads, it will lose revenue from out of state and local residents, that uses the access roads to enjoy their outdoor adventures.
