

Errata: Final Programmatic Environmental Impact Statement (PEIS)

National Forest System Land Management Planning Rule

The PEIS Chapter 3, p. 212 includes a link to the Forest Service Manual for the Recreation Directives. These directives have been superseded by revised directives which can be found at:

<http://www.fs.fed.us/im/directives/dughtml/fsm2000.html>

The revised directives contain similar concepts as the previous directives cited in the PEIS. The change in wording does not affect the findings of the analysis or the decision.
