This cost share agreement between the USDA, Forest Service (USFS) and the State of California Department of Forestry and Fire Protection (CAL FIRE) was prepared under the following guidelines:

1. In accordance with the "California Master Cooperative Wildland Fire Management and Stafford Act Response Agreement" between the USDA Forest Service, USDI Bureau of Land Management, USDI National Park Service, USDI Fish and Wildlife Service, USDI Bureau of Indian Affairs, and the California Department of Forestry and Fire Protection (CAL FIRE).
2. All costs originating from orders placed by and for the incident that can be reasonably obtained and estimated for the cost share period will be included in this agreement and will be shared on the basis of the ICs/ARs' mutual agreement.
3. Costs for non-expendable property purchases by each agency will be charged direct to that agency and will not be shared.
4. Costs incurred by cooperators not engaged in joint fire suppression activities will not be included as a part of this cost share agreement.
5. Agency specific costs will not be shared.
6. Responsibility for tort claim costs or compensation for injury costs will not be a part of this agreement. Responsibility for these costs will be determined outside of this agreement.
7. Non-suppression rehabilitation costs are the responsibility of the jurisdictional agency and will not be shared.
8. Daily cost sharing will be documented and approved by the ICs/ARs for cost apportionment.
9. Sharing of final actual costs between the agencies will be based on a summary of daily estimated incident suppression costs and each agency's proportionate share thereof as agreed to by the jurisdictional representatives.
10. Shared costs will be based on the Incident Commanders/Agency Representatives mutual judgment and agreement as to threat, incident objectives, and resources assigned for each agency's area of responsibility.

11. Aircraft and retardant costs will be shared on an actual use basis as determined by the Incident Commanders/Agency Representatives and will be calculated as a separate cost.
12. Any Burned Area Emergency Rehabilitation (BAER) costs incurred for lands within the area burned by this fire will be agency specific costs and will be charged to the appropriate federal agency code.
13. All costs attributable to the following incident "S" numbers identified below will be chargeable to the Monte fire. The estimated cost is \$2,000. These costs will not be sharable and will not be included in the cost pool. At settlement, the California Department of Forestry and Fire Protection's cost pool will be reduced by these expenditures.
 - S-131 – Replace rear door lock on MKU 33
 - S-132 – Replace water heater on MKU 33
 - S-133 – Replace damaged cooking pans MKU 33
 - S-134 – Replace broken ice chest MKU 33
14. Additional suppression rehabilitation repair is required on Federal and State DPA. Cost for this suppression rehabilitation repair has been apportioned and is included in this agreement for a period of five (5) days. If the actual suppression rehabilitation repair does not meet this time frame parameter, then, by mutual consent, the cost apportionment process may be reopened.
15. Within 10 months the parties to this agreement will meet to determine the total costs of each agency. The agency whose total actual costs exceed their proportional share of the overall incident final costs as determined within this agreement will bill the other agency. The billing, when paid, will result in each agency sharing overall incident costs as herein agreed.
16. An administrative charge, the pre-established percentage set by each agency, will be applied pursuant to agency policy by the agency issuing the settlement billing for the net amount owed.
17. The following agencies will be responsible for collecting actual cost/expenditure data that will make up the cost pool of shareable costs.
