This cost share agreement between the Department of Interior, Bureau of Indian Affairs (BIA) and the State of California, Department of Forestry and Fire Protection (CALFIRE) was prepared under the following guidelines:

1. In accordance with the California Master Cooperative Wildland Fire Management and Stafford Act Response Agreement (CFMA) between the USDA, Forest Service, USDI, Bureau of Land Management, USDI, National Park Service, USDI, Fish and Wildlife Service, USDI, Bureau of Indian Affairs, and the California Department of Forestry and Fire Protection (CAL FIRE).
2. In accordance with the Unified San Diego County Emergency Services Organization Operational Area Emergency Plan, Annex B, Fire and Rescue Mutual Aid Operations. Local County Government resources on Initial and Extended attack were placed on assistance by hire.
3. All costs originating from orders placed by and for the incident that can be reasonably obtained and estimated for the cost share period will be included in this agreement and will be shared on the basis of the ICs/ARs' mutual agreement.
4. Costs for non-expendable property purchases by each agency will be charged direct to that agency and will not be shared.
5. Costs incurred by cooperators not engaged in joint fire suppression activities will not be included as a part of this cost share agreement.
6. Agency specific costs will not be shared.
7. Responsibility for tort claim costs or compensation for injury costs will not be a part of this agreement. Responsibility for these costs will be determined outside of this agreement.
8. Non-suppression rehabilitation costs are the responsibility of the jurisdictional agency and will not be shared.

COST SHARE AGREEMENT for the EAGLE Incident.

9. Daily cost sharing will be documented and approved by the Incident Commanders/Agency Representatives for cost apportionment.
10. Sharing of final actual costs between the agencies will be based on a summary of daily estimated incident suppression costs and each agency's proportionate share thereof as agreed to by the jurisdictional representatives.
11. Shared costs will be based on the Incident Commanders/Agency Representatives mutual judgment and agreement as to threat, incident objectives, and resources assigned for each agency's area of responsibility.
12. Aircraft and retardant costs will be shared on an actual use basis as determined by the Incident Commanders/Agency Representatives and will be calculated as a separate cost.
13. In recognition of the objectives to the Eagle fire contingency lines, all contingency groups were apportioned to the California Department of Forestry and Fire Protection (CAL FIRE). These contingency groups provided a greater benefit to State lands, lessening suppression impacts by utilizing lines of convenience.
14. Staged resources were beneficial to both the Bureau of Indian Affairs (B.I.A) and to the California Department of Forestry and Fire Protection (CAL FIRE). Therefore, these resources will be included in the cost pool.
15. Due to the high volume of hand crew air shuttling and support, rotary wing apportionment percentages were a direct reflection of actual hand crew daily percentages. This methodology was utilized from July 22, 2011 thru July 25, 2011.
16. In recognition of their responsibility to protect State land, CAL FIRE will incur all costs associated with the DC 10 aircraft (A-108). These costs will not be shared between CAL FIRE and BIA.
17. Additional suppression rehabilitation repair is required after July 29, 2011 on BIA land and State Responsibility Area. Cost for this suppression rehabilitation repair has been apportioned and is included in this agreement for a period of three (3) days. If the actual suppression rehabilitation repair does not meet this time frame parameter, then, by mutual consent, the cost apportionment process will be re-opened.
18. An administrative charge, the pre-established percentage set by each agency, will be applied by the agency issuing the settlement billing for the net amount owed.
19. Within 10 months the parties to this agreement will meet to determine the total costs of each agency. The agency whose total actual costs exceed their proportional share of the overall incident final costs as determined within this agreement will bill the other agency. The billing, when paid, will result in each agency sharing overall incident costs as herein agreed.

20. The following agencies will be responsible for collecting actual cost/expenditure data that will make up the cost pool of shareable costs.

COST SOURCES	RESPONSIBLE AGENCY
Federal Agency	BIA – Southern California Agency
State Agency	CAL FIRE – San Diego Unit

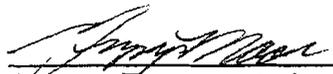

In accordance with the attached documentation, it is hereby agreed that the cost sharing of this incident will be:

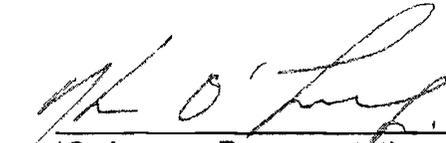

AGENCY	GROUND RESOURCES	AIRCRAFT/RETARDANT
BIA	34.85%	18.53%
CAL FIRE	65.15%	81.47%
TOTAL	100%	100%

This agreement and the apportionment are our best judgment of agency cost responsibilities.
