## Dispersed Camping

Dispersed camping does not provide you with any type of services or facilities. It's just you and the woods. Dispersed camping not quite as simple as driving up to the woods and pitching a tent. There's a handful of rules and regulations that go along with dispersed camping. Here are a few examples of dispersed camping rules.

- You must camp at least 200 feet from streams, lakes, rivers, and other bodies of water.
- You must camp at least 300 feet from developed roads and trails.
- *You may not camp or leave any equipment at the same location for more than 14 consecutive days within a 30-day period.*
- You may not camp near to established recreation areas (trailheads, maintained campgrounds, other developed areas, etc.)
- You may not camp in meadows or clearings (you're not wildlife, so stay out of sight!)

It's important to research an area before you head there. Check for things like burn bans, what type of wildlife you might encounter, whether it's hunting or mating season, what to do if you encounter wildlife, etc. Refer to Motor Vehicle Map for areas that allow dispersed camping.

**Pack it in, pack it out**, and practice the Leave No Trace principles (meaning make it look like you were never there and take all your trash with you). Make efforts to camp in locations that have been used before. This will help limit your impact on the environment.

## Trail Information

There are no trail closures at this time for the Ogden Ranger District.

## Roads and Gates

Forest roads and gates on the Ogden Ranger District (ORD) close in the fall for road surface protection. The Motor Vehicle Use Map (MVUM) shows the earliest date a road will open to motorized travel in the spring and the date a road will close in the fall.
