

Region Four

Forest Health Protection Aviation

Aerial Survey Schedule

2016

The Intermountain Region Team is:

Kathy Matthews, Program Coordinator and Unit Aviation Officer, Observer

Ben Meyerson, Observer

Chad Nelson, Observer

Jason Neumann, Observer

Gene Phillips, Observer Nevada Division of Forestry

Each Team Lead will contact appropriate dispatch center/s to coordinate schedules, flight following arrangements, flight plans, etc., for their respective areas. All aircraft are equipped with Automated Flight Following (AFF) units. Observers will follow AFF protocols set forth in the National Mobilization Guide or as arranged with individual dispatch centers.

Observers will be sketchmapping forest disturbances that have occurred since the previous aerial survey. The survey maps will be processed, digitized and available for distribution in late fall of the year.

You will find in the following pages the schedule for each aircraft followed by schedules for each observer. The schedules may change due to weather, fire and other unforeseen events.

Forest Health Protection (FHP) is responsible for surveying forested lands of all ownerships within the Region. The FHP aerial detection survey program is incorporated into the R1 and R4 supplement to the Aviation Safety Management Plan. [The Project Aviation Safety Plan](#) is available on request from Kathy Matthews or available on the FHP website

http://www.fs.usda.gov/Internet/FSE_DOCUMENTS/stelprdb5302989.pdf. For more information about the FHP aerial survey program contact Kathy Matthews, 208-373-4239, (cell 208-859-2653), email: kmatthews03@fs.fed.us.

Two aircraft are contracted by USDA Forest Service Contracting at the National Interagency Fire Center; Contracting Officer is Jeff McGinley (208) 387-5350. Contact Kathy Matthews (COR), 208-859-2653 regarding aircraft scheduling, availability for fire assignment, contract, or aerial survey program questions.

Vendors:

Centurion Flight Services, Cessna 210T, Tail # N5538Y, white, orange & brown.

Carded for Resource and Fire Recon., Air Attack Type 3, Point to Point.

Contact Chuck Frank: 408-203-3208 cell.

Baker Aircraft, Cessna T-206, Tail # N65N, blue and white.

Carded for Resource and Fire Recon., DOI Air Tactical 2, Point to Point.

Contact Baker Aircraft: 541-523-5663 office.

2016 Aircraft schedule by aircraft tail number, contact Observer with any questions				
Tail #	Date	Area to be Flown	Dispatch Center	Observer/s
65N	Contact Baker Aircraft @ 541-523-5663 during unscheduled times.			
	7/5-8	Boise / Sawtooth /Challis	Boise/Central/S.Central	Matthews/Nelson
	7/11-15	S.Sawtooth/Caribou-Targhee	S.Central/East Idaho	Matthews/Nelson
	7/18-22	Payette/Salmon	Payette/Central	Matthews/Nelson
	7/25-27	T.B.D	T.B.D	Matthews/Nelson
