

# FOREST PLAN AMENDMENT #2

Amendment #2 includes the following changes to portions of the *Land and Resource Management Plan for the Daniel Boone National Forest* (Forest Plan), April 2004. Changes appear as **bold** text, except where text was already bold in headers or tables.

## 3.A. DEVELOPED RECREATION AREAS – Setting (Forest Plan p. 3-47)

This Prescription Area, found in all Management Areas, is estimated at approximately 3,700 acres<sup>1</sup> across the DBNF.

---

<sup>1</sup> Following the addition of the Boone Docks Marina to 3.A. Developed Recreation Areas per Forest Plan Amendment #2, the acreage for this prescription area is still estimated to be approximately 3,700 acres. The marina complex occupies approximately 14.2 acres including approximately 4.8 acres of surface water.

Since Forest Plan Amendment #2 does not modify the estimated acreage of 3.A. Developed Recreation Areas, Table C-3. Summary of Allocations in Acres (Forest Plan, p. C-3) and Table C-5. Scenic Integrity Objective (SIO) By Prescription Area (Forest Plan, p. C-5) will remain the same. Where prescription areas overlap, the more restrictive SIO must be followed.

Appendix G of the Forest Plan, Figure G – 10. Developed Recreation (Forest Plan, p. G-11).

When viewing this document electronically, Figure G – 10. is available as a separate attachment.
