INSTRUCTIONS TO OFFERORS

1. OFFEROR'S QUALIFICATIONS: Before a proposal is considered for award, the Offeror is required to submit a technical and price proposal, as described in instruction 2 and comply with all other provisions stated herein. The proposal should be practical and be prepared simply and economically, providing a straightforward, concise delineation of what it is the Offeror will do to satisfy the requirements of the contract. Upon contract award, this technical proposal will become a binding part of this contract.

2. PREPARATION OF PROPOSALS: Offers shall be manually signed, with prices entered in block 14j for timber values and blocks 15e and 15f for the stewardship projects and all fill-in blocks, 16b, 17b, 19, and 27, completed. If erasures or other changes appear on the forms, the person signing the offer must initial each erasure or change.

Proposal Requirements. Proposals shall be submitted in two parts: a technical proposal and a price proposal.

a. **Technical Proposal Instructions.** The technical proposal will be used to make an evaluation and arrive at a determination as to whether the proposal will meet the requirements of the Government. Therefore, the technical proposal must present sufficient information to reflect a thorough understanding of the requirements and a detailed description of the techniques, procedures, and program for achieving the objectives of the specifications/statement of work. Proposals which merely paraphrase the requirements of the Government's specifications/statement of work, or use phrases such as "will comply" or "standard techniques will be employed" will be considered unacceptable and will not be further considered. Technical proposals will be evaluated and ranked on the basis of the following criteria. As a minimum, the proposal must clearly provide the following:

(i) **Organizational Experience** Experience is the opportunity to learn by doing. Describe your and your subcontractor's organizational experience on the basis of its breadth, its depth, and its relevance to the work that will be required under the prospective contract.

(ii) **Organizational Past Performance** Past performance is a measure of the degree to which an offeror satisfied its customers in the past and complied with Federal, state, and local laws and regulations. Provide references and other sources of information for you and your subcontractors related to past performance, including, but not limited to: Federal, state, and local government agencies, better business bureaus, published media, and electronic data bases.

(iii) **Local Community Economic Enhancement** Describe your ability to enhance local and small business employment. Identify how you intend to utilize local hires and subcontractors. Identify where you intend to deliver logs. Local is defined as an address for normally doing business in **(Enter the counties that pertain to your forest)** Counties. Identify your and your subcontractor's status as a small business concern. A small business concern is a concern primarily engaged in the logging or forest products industry, is independently owned and operated, is not dominant in its field of operation, and together with its affiliates, does not employ more than 500 persons.

(iv) **Understanding the Government's Requirements** Include the following information:

- (A) the names and resumes of your contract manager and on-the-ground supervisor.
- (B) a plan of operation for both timber removal and stewardship project work, including a timeline and the rationale for work activities to ensure all contractual work will be completed by the termination date.
- (C) a quality control plan for both the harvesting and the stewardship projects.
- (D) the equipment you propose to use to accomplish this contract.
- (E) your production capability to accomplish this contract within the time allowed.

b. **Price Proposal.** All Offeror must furnish a total price value in Block 14j for the mandatory timber cutting units. If an offer is entered for the optional timber cutting units in Block 14i, timber removal will be required. In addition, Offerors must enter a rate per unit in Block 15e and a total price in Block 15f for the mandatory and optional stewardship projects and may provide a separate price proposal that, as a minimum, contains a breakdown of the person hours, equipment, materials, overhead, profit and any other direct and indirect costs that substantiate the offeror's submitted prices.

3. SUBMISSION OF OFFERS: Offers must be submitted to the Contracting Officer, designated by the solicitation as the receiving officer, at or prior to the time for receipt of offers. Such offers must be enclosed in a sealed envelope addressed to the designated receiving officer. The envelope should show on the outside (a) that it is a "Best Value Offer," and (b) the contract name or number, and the date and time of offer closing, as shown by the offer form. Offers received after the time specified on the offer form are late offers. Forest Service Handbook 2409.18, Chapter 60 will govern acceptance of such offers.

4. OPENING OF OFFERS: The competitive proposal does not allow for public opening of offers. The Government may disclose the following information in post-award debriefings to other Offerors: (a) the overall evaluated price and technical rating of the successful Offeror; (b) the overall ranking of all Offerors, when any ranking was developed by the Agency during source selection, (c) a summary of the rationale for award, and (d) for acquisitions of commercial items, the make and model of the item to be delivered by the successful Offeror .

5. OFFER GUARANTEE: Inapplicable

6. EVALUATION OF PROPOSALS AND AWARD OF CONTRACT:

a. **AWARD DETERMINATION:** Award will be made to the offeror whose offer provides the best value to the government, considering price and the non-price factors listed below. Non-price evaluation factors, when combined, are **(significantly more important than cost or price OR approximately equal to cost or price OR significantly less important than cost or price)**. **(Note - consult with your AQM and choose one option.)**

The selection official will base the award decision on a tradeoff between price and non-price factors, comparing the relative risk to the government of poor or non-performance posed by each of the offerors, and making a judgment as to whether or not reduced risk of performance is worth the additional cost. In some cases this will result in award to a lower-ranked but lower-priced offer; in other cases the result will be award to a higher-ranked but higher-priced offer.

b. EVALUATION FACTORS

Acceptability of the Offer The Government will determine the acceptability of each offer on a pass or fail basis. An offer is acceptable when it manifests the offeror's assent, without exception, to the terms and conditions of this solicitation, including attachments. **If an offeror takes an exception to any of the terms and conditions of the solicitation, then the Government will consider its offer to be unacceptable.**

Capability of the Offeror The Government will assess the capability of each offeror on the basis of the following criteria which are of approximately equal value: (i) Organizational Experience 17%, (ii) Organizational Past Performance 17%, (iii) Local Community Economic Enhancement 33%, and (iv) Understanding of the Government's requirements 33%. The Government will not assess capability on a pass/fail basis, but will use its assessments of capability as a basis for comparing offerors to determine best value.

(i) Organizational Experience. Experience is the opportunity to learn by doing. The Government will evaluate each offeror's organizational experience on the basis of its breadth, its depth, and its relevance to the work that will be required under the prospective contract. The Government will not evaluate an offeror's organizational experience on the basis of the personal experience of the offeror's key personnel. However, the Government will consider the extent to which the offeror's key personnel have worked together in the past. The Government will evaluate the organizational experience of the offeror's proposed key subcontractors.

(ii) Organizational Past Performance. Past performance is a measure of the degree to which an offeror satisfied its customers in the past and complied with Federal, state, and local laws and regulations. The Government will contact some of each offeror's customers to ask whether or not that: (1) that the offeror was capable, efficient, and effective; (2) the offeror's performance conformed to the terms and conditions of its contract (specifications); (3) finished within the contract time; (4) the offeror was reasonable and cooperative during performance; and (5) the offeror was committed to customer satisfaction. In evaluating past performance, the Government will contact some of the references provided by the offeror and other sources of information, including, but not limited to: Federal, state, and local government agencies, better business bureaus, published media, and electronic data bases. The Government may evaluate the organizational past performance of the offeror's proposed key subcontractors.

(iii) Local Community Economic Enhancement. The ability of Offerors to enhance local and small business employment opportunities will be evaluated based upon the following sub-criteria. "Place of operation" is defined as the Contractor's address for normally doing business on a year-to-year basis. Local is defined as **(Enter counties that pertain to your forest)** Counties:

(A) Local Hires. Offerors who submit the greatest number of local hires having a permanent place of operation closest to the work site will be given a higher rating.

(B) Prime Contractor. Offerors whose permanent place of operation is closest to the work site will be given a higher rating.

(C) Subcontractors. Offerors who submit the greatest number of subcontractors having a permanent place of operation closest to the work site will be given a higher rating.

(D) Small Businesses. Offerors who are small businesses or utilize local small business sawmills will be given a higher rating. A small business concern is a concern primarily engaged in the logging or forest products industry, is independently owned and operated, is not dominant in its field of operation, and together with its affiliates, does not employ more than 500 persons.

(iv) Understanding of the Government's Requirements. The Government will evaluate each offeror's relative understanding of the Government's requirements on the basis of its written Technical Proposal addressing the following subfactors:

(A) Plan of Operations. Offeror's plan of operations for both timber removal and stewardship project work, including its timeline and the rationale for work activities to ensure all contractual work will be completed by the termination date.

(B) Quality Control Plan. Offeror's quality control plan for both the harvesting and the stewardship projects.

(C) Supervision. Qualifications of Offeror's contract manager and on-the-ground supervisor.

(D) Equipment. Capability of the equipment Offeror proposes to use to accomplish this contract.

(E) Production Capability. Offeror's production capability to accomplish this contract within the time allowed.

Proposals must be submitted initially on the most favorable terms from a technical and price standpoint which the Offeror can submit to the Government. Therefore, the Government reserves the right to award without discussions with the Offerors. However, after receipt of initial offers, written or oral discussions may be conducted.

Firms lacking a past performance record (new firms or those with no relevant experience within their organization) will be treated as an unknown performance risk, and will receive a neutral rating in this criteria. A neutral rating will be established as the average of all other competing Offerors.

The Government may, when in its interest, reject any or all offers or waive any informality in offers received. A written award mailed (or otherwise furnished) to the successful Offeror shall be deemed to result in a binding contract without further action by either party.

If an appeal or lawsuit is filed challenging the decision to award this contract or upon determination by the Regional Forester that conditions existing on this stewardship contract are the same as, or nearly the same as, conditions existing on other contract(s) in appeal or litigation, Contracting Officer may delay award or reject all offers. If delay in award is for 10 days or more during Normal Operating Season after offer opening, Contracting Officer shall, upon award, adjust the contract term to include additional calendar days in one or more Normal Operating Seasons equal to the actual time lost.

7. DOWNPAYMENT: Inapplicable

8. DAMAGES: Offeror acknowledges that this contract shall be terminated for breach pursuant to blocks 17, 17a, 17b, 20, 22, 25, 26, and/or 27 of this offer form and the terms of the sample contract if: (a) the Offeror fails to execute a stewardship contract or furnish a satisfactory performance bond, within the number of days listed in block 20, of award letter's date; or (b) the Offeror is found to have violated the False Statements Act in making any statement or certification on this offer form, including not meeting contractor responsibility requirements. The Offeror acknowledges that the Offeror shall not be entitled to cure this breach and that it will pay damages pursuant to the terms of the sample contract.

Offeror's failure to execute and return this contract, or to provide the performance bond, within 30 days of the date of Contracting Officer's letter of award constitutes a breach of the contract. Offeror's failure to correct the breach within any additional time set by Contracting Officer constitutes a repudiation and breach of the contract and terminates the contract without further action by Contracting Officer. Damages due the United States shall be determined in the following manner: (a) The costs, as described in this instruction, incurred by Forest Service in contacting the other qualified offeror s regarding accepting the award of the contract at the high Offeror's repudiated rate or (b) If another qualified offeror does not accept award of the contract at the high Offeror's repudiated rate:

(i) If the repudiated contract is reoffered within 6 months of the date of repudiation, damages shall be the difference between the total recontract offer value and the total value of Offeror's repudiated offer, plus costs described in this instruction or

(ii) If there are no responsive offers on the reoffered contract, damages shall be the difference between the reoffered appraised value and the total value of Offeror's repudiated offer, plus costs described in this instruction or

(iii) If the repudiated contract will not be reoffered or the reoffer is not made within 6 months of Offeror's repudiation, damages shall be the difference between the appraised value of this contract as of the date of Offeror's repudiation and the total value of Offeror's repudiated offer, plus the costs described in this instruction.

The costs to be included in damages are the costs the Government incurs in making the reoffer, including, but not limited to, salary costs, document preparation and duplication costs, mailing costs, and contract solicitation costs.

Damages will also include interest measured by interest at the Current Value of Funds Rate established by the Secretary of the Treasury, on deposits required at award. Interest will be calculated from the date of Offeror's repudiation to the date of award of the reoffered contract or to the date a determination is made not to reoffer the repudiated contract or for 6 months, whichever comes first.

9. PRIVACY ACT: All personal information is requested on a voluntary basis; however, if you do not provide this personal information, your offer will not be accepted and the contract will not be awarded to you. Solicitation of this information is necessary for the Government to conduct its contracting program and thus is authorized under the National Forest Management Act of 1976, (16 USC 472a). The principle purpose for collecting this information is to allow for proper award of a stewardship contract and to provide for administration of that contract after award. Other routine uses of this data include: (a) compilation of small business data to determine needs for set-aside contracts, (b) determination of volume purchased in any specific time period by a single contractor, and (c) determination of volume under contract by a contractor.

10. ROAD COMPLETION DATE: : The Offeror hereby acknowledges that the Offeror is aware of the road completion date in the sample contract. The Offeror also acknowledges that if the Offeror elects to have Forest Service construct specified roads, the Offeror is aware: (a) that the Forest Service expects to contract for road construction, (b) that the stewardship contract will not be awarded unless a satisfactory road construction bid is received and a road construction contract is awarded or, if the Forest Service fails to receive such a bid within a maximum period stated in the solicitation of the road contract, the Offeror agrees to perform road construction, (c) that the Forest Service may extend the maximum award delay time by the amount of time needed to confirm either contract or road Offeror's size status or by any time in excess of 40 days from offer opening needed to begin solicitation of construction bids, and (d) that if the Forest Service extends the maximum award delay period because solicitation of the road contract is delayed, the Offeror may withdraw its offer without penalty.

11. ELECTION OF ROAD OPTION AND CERTIFICATE OF SMALL BUSINESS STATUS: The National Forest Management Act of 1976 (16 USC 472h(i)) provides that the Secretary of Agriculture may permit offerors qualifying as small business concerns under the Small Business Act to elect, when submitting an offer, to have the Secretary build the specified roads. Offerors qualifying as a small business concern under the Small Business Act, as amended, and the regulations thereunder, may elect to have the Forest Service construct the Specified Roads required by this contract. The Offeror who does not elect agrees, if awarded the contract, to construct the roads in accordance with the contract. A Offeror who does elect acknowledges that Offeror is aware of and agrees to the conditions stated in instruction 10 and that the Offeror is a small business concern.

If you wish to elect Government construction, you must so indicate in block 19 on the offer form that you submit. You may not accept this election at a later time. If you do not elect Government construction on your original offer form and you receive contract award, you must construct needed specified roads. You must elect Government construction for all of the specified roads as a package. Election of Government construction of a portion of the roads constitutes a non-responsive offer. When you elect Government construction, you must certify your firm as a qualified small business concern and acknowledge your understanding that award of the contract cannot take place until the Forest Service ensures road construction.

Except in rare instances, and then only when indicated in the solicitation, the Forest Service must rely upon independent contractors to construct the roads when you request Government construction. The Forest Service shall make a good-faith effort to let a contract for the construction. Without receipt of a satisfactory bid under Federal Procurement Regulations, the Forest Service can only award the stewardship contract to you if you agree to perform the construction. This problem does not arise often, but you should consider the possibility when deciding upon your election.

The Act also requires that when the Offeror elects to have the Secretary build the roads, the price paid for the timber must include all of the estimated construction costs of the roads. The Offeror must pay the total cost of the road, regardless of the amount that the offer value exceeds base rate value. This means that you may be billed at a rate higher than the offer rate.

12. ELECTION OF ROAD OPTION: Not applicable.

13. DEFINITIONS:

Affiliates: Business concerns or individuals are affiliates of each other if, directly or indirectly, (a) either one controls or has the power to control the other; or (b) a third party controls or has the power to control both.

Offeror: An Offeror is any individual, organization, or other legal entity that submits an offer for, or may be expected to submit an offer for, a National Forest contract.

Covered Transactions: A primary or lower tier covered transaction. A primary covered transaction is any non-procurement transaction between an agency and a person. A lower tier covered transaction is any transaction between a participant and a person other than a procurement contract, unless the procurement contract is greater than \$25,000.

Participant: Any person who submits a proposal for, enters into, or reasonably may be expected to enter into a covered transaction. This term also indicates any person who acts on behalf of or is authorized to commit a participant in a covered transaction as an agent or representative of another participant.

Contract Officer: An individual delegated responsibility for any specific aspect or task in the offering or awarding process for contracts.

Small Business: a Small Business is a concern that: (1) is primarily engaged in the logging or forest products industry; (2) is independently owned and operated; (3) is not dominant in its field of operation; and (4) together with its affiliates, does not employ more than 500 persons.

14. CERTIFICATION OF COMPLIANCE WITH EXPORT RESTRICTIONS: Certain restrictions on the purchase and export of unprocessed logs cut from National Forest timber apply in various parts of the country. Pursuant to the Forest Resources Conservation and Shortage Relief Act of 1990, as amended (16 USC 620, *et seq.*), the Offeror acknowledges that the Offeror is aware of the applicable export restrictions. The Offeror is aware that these restrictions affect the disposition of the included timber and is aware that the restrictions may reduce the potential value of the timber.

15. CERTIFICATION REGARDING DEBARMENT, SUSPENSION, PROPOSED DEBARMENT, AND OTHER RESPONSIBILITY MATTERS-CONTRACT TRANSACTIONS: The inability of a person to provide the certifications in block 17a will not necessarily result in denial of participation in this contract (covered transaction). The Offeror shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the Forest Service's determination whether to enter into this contract. However, failure of the Offeror to furnish a certification or an explanation shall disqualify such person from participation in this contract. The certification is a material representation of fact upon which reliance was placed when the Forest Service determined to enter into this contract. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the Forest Service may terminate this contract for cause or default. The Offeror shall provide immediate written notice to the Forest Service officer, to whom this offer is submitted, if at any time the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances. The terms 'covered transaction,' 'debarred,' 'suspended,' 'ineligible,' 'lower tier covered transaction,' 'participant,' 'person,' 'primary covered transaction,' 'principal,' 'proposal,' and 'voluntarily excluded,' as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549. You may contact the Forest Service for assistance in obtaining a copy of those regulations. The Offeror agrees by submitting this offer that, should the proposed contract transaction be entered into, it shall not knowingly enter into any subcontractor transaction (lower tier covered transaction) with a person who is proposed for debarment under 48 CFR 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this contract, unless authorized by the Forest Service's non-procurement Debarment and Suspending Official. The Offeror further agrees by submitting this offer that it will provide the addendum titled 'Subcontractor Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion,' without modification, to all subcontractors and in all solicitations for subcontractors.

16. SUBCONTRACTOR CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY, AND VOLUNTARY EXCLUSION: Pursuant to 7 CFR 3017.510 each contractor shall require subcontractors to include a certification for it and its principals in any proposal submitted in connection with this contract. Contractors shall keep the certifications on file until the termination date of the contract. A participant in a contract may rely upon a certification of a prospective subcontractor that it is not proposed for debarment under 48 CFR 9.4, debarred, suspended, ineligible, or voluntarily excluded from the contract, unless it knows that the certification is erroneous. A contractor may decide the method and frequency by which it determines the eligibility of its principals. Each contractor may, but is not required to, check the List of Parties Excluded from Federal Procurement and Non-procurement Programs. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this provision. The knowledge and information of a contractor is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings. Except for transactions authorized in paragraph 5 of the instructions for certification, if a contractor knowingly enters into a subcontractor transaction with a person who is proposed for debarment under 48 CFR 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this contract, in addition to other remedies available to the Federal Government, the Forest Service may terminate this contract for cause or default and/or pursue suspension and/or debarment. The instructions and certification follow:
