

Lodgepole Flats Meadow Restoration Project

Lodgepole Flats Meadow Restoration Project is located West of Highway 22 and Big Springs Snow Park, T13S, R07E, Section 5 & 8. The project area is approximately 30 acres in size and can be seen on the map outlined in red. In the fall of 2012 sometime between, September and November, the US Forest Service plans to conduct a broadcast burn in the Lodgepole Flats Project area.

Tree encroachment and fire suppression have reduced the meadow complex and this project aims to restore them. Meadows offer biological diversity for wildlife and native plant species.

If you have questions, concerns, or would like to know more about the Lodgepole Flats prescribed burn, please contact Nanci Curtis at the Sweet Home Ranger District, 541-367-3285.
