

BOISE, PAYETTE, SAWTOOTH FOREST PLANS ERRATA #4

APPENDIX A

AUGUST 12, 2005

The following errors have been found in the final Land and Resource Management Plan for the Boise, Payette, and Sawtooth National Forests. As with the first, second, and third Errata of July 2003, September 2003, and August 2004, these changes represent factual corrections or clarifications that have no bearing on the analysis completed or the decisions made by the Responsible Official in the Records of Decision for the National Forest Land and Resource Management Plans. Changes are presented here to correct inconsistencies between the final documents and technical report or project record information, and to help make the decisions easier to understand and implement for forest managers.
