

Charcoal Briquettes

After using barbeques, be sure to completely extinguish the burning charcoal briquettes: DUNK 'EM, DON'T SPRINKLE! Soak the coals with lots of water; stir them and soak again. Be sure they are out cold! If the coals are too warm to touch, they are too warm to leave. Always double check!

This fire started when careless campers tried to throw away a barbeque filled with hot charcoal briquettes! We narrowly avoided a catastrophe with this one!
