MIDDLE SALMON - CHAMBERLAIN SUBBASIN					
170602070403	dmays	4/10/2006	Reduce invasive weed species colonization on south facing slopes.	Low	
170602070403	dmays	4/10/2006	Reduce invasive weed species colonization in Rattlesnake drainage.	Low	
170602070403	dmays	4/10/2006	Investigate colonization of non-native fish in upstream reaches. Verify identified threat.	Low	
170602070502	dmays	4/10/2006	Investigate possible presence of non-native fish competition and extent of introgression.	Low	
170602070601	dmays	4/10/2006	Reduce cronic sediment at stream crossings and streamside roads (Montana Road)	High	
170602070601	dmays	4/10/2006	Investigate possible presence of non-native fish competition and introgression.	Low	
170602070601	dmays	4/10/2006	Reduce cronic erosion and sediment associated with campground.	Low	
170602070602	dmays	4/10/2006	Reduce cronic sediment at headwater tributary stream crossings of Porcupine Creek/Montana Road.	Medium	
170602070602	dmays	4/10/2006	Investigate possible presence of non-native fish competition and extent of introgression.	Low	
170602070702	dmays	4/10/2006	Evaluate stream crossings on FS 421 road for fish passage and replace as necessary - both private and USFS ownership.	Medium	
170602070702	dmays	4/10/2006	Inventory stream crossings and correct cronic sediment sources.	Medium	
170602070702	dmays	4/10/2006	Investigate colonization and distribution of brook trout.	Medium	
170602070703	dmays	4/10/2006	Inventory stream crossings and correct cronic sediment sources.	Medium	
170602070703	dmays	4/10/2006	Reduce invasive weed species colonization on south facing slopes.	Low	
170602070704	dmays	4/10/2006	Reduce invasive weed species colonization on south facing slopes.	Low	
170602070705	dmays	4/10/2006	Inventory stream crossings and correct cronic sediment sources.	Medium	
170602070705	dmays	4/10/2006	Evaluate stream crossings for fish passage and replace as necessary.	Low	
170602070706	dmays	4/10/2006	Mammoth Mine area on Tepee Creek - inventory and assess stream crossings and correct cronic sediment sources.	Low	
170602070706	dmays	4/10/2006	Reduce invasive weed species colonization on south facing slopes and at Mackey Bar.	Medium	

HUC6	Lotus Short Names	Date	Needed Action	Priority	Keyword
170602070801	dmays	4/10/2006	Reduce invasive weed species colonization on south facing slopes.	Low	
170602070802	dmays	4/10/2006	Investigate possible presence of non-native fish and extent of introgression.	Low	
170602070802	dmays	4/10/2006	Reduce invasive weed species colonization on south facing slopes.	Low	
170602070804	dmays	4/10/2006	Investigate extent of non-native fish distribution (brook trout in Sheep).	High	
170602070804	dmays	4/10/2006	Investigate possible presence of non-native fish competition and extent of introgression (rainbow and cutthroat).	Low	
170602070804	dmays	4/10/2006	Inventory stream crossings and correct chronic sediment sources.	Low	
170602070804	dmays	4/10/2006	Reduce invasive weed species colonization on south facing slopes.	Low	
170602070805	jparadiso	8/4/2006	Treat invasive weed infestations.	High	
170602070806	jparadiso	8/4/2006	Evaluate stream crossings for failure risk and replace.	Medium	
170602070806	jparadiso	8/4/2006	Decommission unneeded roads.	High	
170602070806	jparadiso	8/4/2006	Evaluate transportation system for maintenance and reconstruction to reduce flow alteration and erosion.	Medium	
170602070806	jparadiso	8/4/2006	Improve trail drainage to reduce erosion.	Medium	
170602071001	dmays	4/10/2006	Inventory stream crossings and correct chronic sediment sources.	High	
170602071001	dmays	4/10/2006	Feasibility study and restoration of dredged reach of upper Crooked Creek.	Medium	
170602071001	dmays	4/10/2006	Add whole trees to dredged reaches of upper Crooked Creek.	Medium	
170602071001	dmays	4/10/2006	Evaluate stream crossings for fish passage and replace as necessary.	Medium	
170602071001	dmays	4/10/2006	Investigate possible presence of non-native fish and extent of introgression.	Low	
170602071002	dmays	4/10/2006	Evaluate stream crossings for fish passage and replace as necessary.	Medium	
170602071002	dmays	4/10/2006	Inventory stream crossings and correct chronic sediment sources.	High	
170602071002	dmays	4/10/2006	Investigate possible presence of non-native fish and extent of introgression.	Low	
170602071003	dmays	4/10/2006	Inventory stream crossings and correct chronic sediment sources.	Medium	
170602071003	dmays	4/10/2006	Investigate and reduce chronic sediment from streamside roads.	Medium	
170602071003	dmays	4/10/2006	Investigate extent of non-native fish distribution (brook trout in Lake Creek system).	High	

HUC6	Lotus Short Names	Date	Needed Action	Priority	Keyword
170602071004	dmays	4/10/2006	Investigate colonization and distribution of brook trout.	Medium	
170602071004	dmays	4/10/2006	Inventory stream crossings in upper Crooked and Big Creek and correct chronic sediment delivery to lower Crooked Creek.	Medium	
170602071101	gseloske	4/10/2006	Remove impacts to stream banks and riparian vegetation in meadow reaches from domestic livestock.	Medium	
170602071101	gseloske	4/10/2006	Book trout removal.	Medium	
170602071101	gseloske	4/10/2006	Inventory stream crossings and correct chronic sediment sources in upper Halls Gulch.	Low	
LOWER SALMON SUBBASIN					
170602090201	jparadiso sarussell	8/4/2006	Decommission unneeded roads.	Low	
170602090201	jparadiso sarussell	8/4/2006	Evaluate one road crossing for fish passage on unnamed stream and replace as needed.	High	
170602090201	jparadiso sarussell	8/4/2006	Evaluate and replace undersized and high failure risk CMPs.	Medium	
170602090201	jparadiso sarussell	8/4/2006	Treat invasive weed infestations.	Low	
170602090204	jparadiso	8/4/2006	Redesign and stabilize 221 Road.	High	
170602090204	jparadiso	8/4/2006	Evaluate transportation network for maintenance and decommissioning of Road 2081.	High	
170602090204	jparadiso	8/4/2006	Evaluate transportation network for maintenance and decommissioning of Road 9921.	Low	
170602090204	jparadiso	8/4/2006	Continue to implement range improvements on Padrick Ridge.	Low	
170602090205	jparadiso	8/4/2006	Decommission unneeded stacked roads.	High	
170602090205	jparadiso	8/4/2006	Complete road improvements on 263 road to improve drainage and sediment.	Low	
170602090205	jparadiso	8/4/2006	Treat invasive weed infestations.	Medium	
170602090301	jparadiso	8/4/2006	Decommission unneeded stacked roads.	High	
170602090302	jparadiso	8/4/2006	Decommission unneeded roads (stacked).	Medium	
170602090302	jparadiso	8/4/2006	Manage OHV use to minimize soil erosion in uplands.	Low	
170602090302	jparadiso	8/4/2006	Develop off-stream water for livestock to reduce stream impacts.	Medium	
170602090302	jparadiso	8/4/2006	Evaluate transportation system for maintenance and reconstruction on system roads to reduce flow alteration and erosion.	Medium	
170602090302	jparadiso	8/4/2006	Treat invasive weed infestations.	Medium	
170602090302	jparadiso	8/4/2006	Decommission Road 410 - Streamside road.	Low	
170602090303	jparadiso	8/4/2006	Evaluate fish bearing stream crossings and replace as necessary.	Medium	

HUC6	Lotus Short Names	Date	Needed Action	Priority	Keyword
170602090303	jparadiso	8/4/2006	Decommission unneeded roads.	Medium	
170602090303	jparadiso	8/4/2006	Develop off-stream water for livestock to reduce stream impacts.	Medium	
170602090303	jparadiso	8/4/2006	Treat invasive weed infestations.	Medium	
170602090304	jparadiso	8/4/2006	Evaluate transportation system for maintenance and reconstruction on system roads to reduce flow alteration and erosion.	High	
170602090304	jparadiso	8/4/2006	Resize undersized culverts to accommodate 100 yr flood events.	High	
170602090304	jparadiso	8/4/2006	Monitor past road decommissioning in East Fork John Day Creek drainage.	Medium	
170602090305	jparadiso	8/4/2006	Decommission streamside road along Sherwin Cr.	High	
170602090305	jparadiso	8/4/2006	Develop off-stream water for livestock to reduce stream impacts.	Medium	
170602090305	jparadiso	8/4/2006	Decommission unneeded roads.	Medium	
170602090305	jparadiso	8/4/2006	Manage OHV recreation to prevent watershed impacts.	Low	
170602090305	jparadiso	8/4/2006	Treat invasive weed infestations.	Medium	
170602090401	jparadiso sarussell	8/4/2006	Manage OHV trail network to minimize soil and water impacts and determine restoration or protection needs.	High	
170602090401	jparadiso sarussell	8/4/2006	Decommission unneeded roads.	High	
170602090401	jparadiso sarussell	8/4/2006	Correct fish passage problems on system roads.	High	
170602090401	jparadiso sarussell	8/4/2006	Complete maintenance or reconstruction on system roads to reduce flow alteration, erosion, replace undersized and high failure risk CMPs.	Medium	
170602090401	jparadiso sarussell	8/4/2006	Revegetate road cut and fill slopes.	Medium	
170602090401	jparadiso sarussell	8/4/2006	Stream and riparian vegetation restoration from historic mining disturbances.	Low	
170602090401	jparadiso sarussell	8/4/2006	Stream restoration associated with legacy livestock impacts in Bungalow, Cow Camp area.	Low	
170602090401	jparadiso sarussell	8/4/2006	Harden crossings and reduce erosion where OHV cross streams.	Medium	
170602090401	jparadiso sarussell	8/4/2006	Evaluate and correct fish passage problems on system roads.	Low	
170602090401	gseloske	1/25/2007	Address user created motorized vehicle stream crossing of Van Buren Creek near the mouth.	High	
170602090401	gseloske	1/25/2007	Address FS system motorized vehicle stream crossing of Little Slate Creek (trails 308 & 303).	High	
170602090401	gseloske	1/25/2007	Address FS system motorized vehicle trail (303) occupying the same physical location as Miller Creek streambed upstream of FSR 221 also between Baboon Gulch and Waverly Mine.	High	

HUC6	Lotus Short Names	Date	Needed Action	Priority	Keyword
170602090401	gseloske	1/25/2007	Address FS system motorized vehicle trail crossing of Little French Creek.	Medium	
170602090401	gseloske	1/25/2007	Address FSR 9328 crossing of Little French Creek. Failing culvert must be addressed. Evaluate site for culvert size adequacy and potential to increase size to accommodate upstream flow capacity and aquatic organism passage.	High	
170602090401	gseloske	1/25/2007	Address/curtail user developed motorized vehicle trail paralleling Gold Lake Creek upstream of FSR 221. User developed route is known to access closed road system (FSR 9330).	Medium	
170602090401	gseloske	1/25/2007	Address/curtail user developed motorized vehicle trail between Gold Lake Creek (FSR 221W) and Miller Creek (trail 303) south of FSR 221.	Medium	
170602090401	gseloske	1/25/2007	Reduce impacts to aquatics and riparian habitat conservation areas due to dispersed recreation sites (i.e. Jct of FSR's 221 & 643)	Medium	
170602090401	gseloske	1/25/2007	Eliminate domestic livestock degradation to riparian meadows along Little Slate Creek	High	
170602090401	gseloske	1/25/2007	Reduce surface erosion from FSR 221 cutslopes by reconstruction and/or revegetating and preventing motorized vehicle travel on them (Boulder Cr).	Medium	
170602090401	gseloske	1/25/2007	Reduce surface erosion from FSR 221 cutslopes by reconstruction and/or revegetating and preventing motorized vehicle travel on them (Little Slate Cr).	High	
170602090401	gseloske	1/25/2007	Evaluate surface erosion and hydrologic processes with respect to FSR 643 and reconstruct to higher Forest Standard; consider adding base rock, gravel surfacing, surface drainage, and stream crossings (Little Slate Cr).	High	
170602090401	gseloske	1/25/2007	Evaluate surface erosion and hydrologic processes with respect to FSR 643 and reconstruct to higher Forest Standard; consider adding base rock, gravel surfacing, surface drainage, and stream crossings (Little French Cr).	Medium	
170602090401	gseloske	1/25/2007	Evaluate riparian meadows along Little Slate Creek from Bungalow Cow Camp, upstream to FSR 221 for hydrologic processes integrity, water table, riparian vegetation community, and stream processes and develop a plan to implement restoration.	High	
170602090402	jparadiso sarussell	8/4/2006	Decommission unneeded roads.	High	

HUC6	Lotus Short Names	Date	Needed Action	Priority	Keyword
170602090402	jparadiso sarussell	8/4/2006	Evaluate transportation system for maintenance and reconstruction on system roads to reduce flow alteration and erosion.	Medium	
170602090402	jparadiso sarussell	8/4/2006	Evaluate trail stream crossing on Boulder Cr.	Medium	
170602090402	jparadiso sarussell	8/4/2006	Evaluate OHV trail network to determine soil and water impacts and restoration or protection needs.	High	
170602090403	jparadiso	8/4/2006	Revegetate road cut and fill slopes.	Medium	
170602090403	jparadiso	8/4/2006	Complete maintenance or reconstruction on system roads to reduce flow alteration and erosion.	High	
170602090404	jparadiso	8/4/2006	Decommission unneeded roads on Arrison Ridge and in No Business.	Medium	
170602090404	jparadiso	8/4/2006	Complete maintenance or reconstruction on system roads to reduce flow alteration and erosion.	High	
170602090501	jparadiso	8/4/2006	Evaluate road transportation network for decommissioning opportunities.	High	
170602090501	jparadiso	8/4/2006	Evaluate and replace undersized and high failure risk CMPs.	Medium	
170602090502	jparadiso	8/4/2006	Evaluate road transportation network for decommissioning opportunities.	High	
170602090502	jparadiso	8/4/2006	Evaluate stream crossings for failure risk and replace high risk CMPs.	High	
170602090503	jparadiso	8/4/2006	Decommission unneeded roads.	Medium	
170602090503	jparadiso	8/4/2006	Develop off-stream water for livestock to reduce stream impacts.	High	
170602090601	jparadiso	8/4/2006	Implement planned road decommissioning.	High	
170602090601	jparadiso	8/4/2006	Evaluate road transportation network for decommissioning opportunities on the Clearwater District portion of HUC6.	High	
170602090601	jparadiso	8/4/2006	Evaluate and repair fish passage road crossing barriers.	Medium	
170602090601	jparadiso	8/4/2006	Evaluate transportation system for maintenance and reconstruction on system roads to reduce flow alteration and erosion.	Medium	
170602090601	jparadiso	8/4/2006	Treat invasive weed infestations.	Medium	
170602090602	jparadiso	8/4/2006	Implement planned road decommissioning. Evaluate remaining road network in High Camp.	High	
170602090602	jparadiso	8/4/2006	Evaluate and repair fish passage road crossing barriers.	High	
170602090602	jparadiso	8/4/2006	Treat invasive weed infestations.	Medium	
170602090602	jparadiso	8/4/2006	Complete road improvements within Burnt Flats Fire area to improve drainage and sediment.	Medium	

HUC6	Lotus Short Names	Date	Needed Action	Priority	Keyword
LITTLE SALMON RIVER SUBBASIN					
170602100402	jparadiso	8/4/2006	Evaluate White Bird Ridge roads for decommissioning.	Medium	
170602100402	jparadiso	8/4/2006	Improve Wyant Cr bridge to allow debris passage.	Low	
170602100404	jparadiso	8/4/2006	Evaluate fish bearing stream crossings in SF Shingle Cr replace as necessary.	Medium	
170602100404	jparadiso	8/4/2006	Decommission unneeded roads.	Medium	
170602100404	jparadiso	8/4/2006	Evaluate all stream crossings on system roads and upgrade/resize.	Medium	
170602100404	jparadiso	8/4/2006	Evaluate transportation system for maintenance and reconstruction to reduce flow alteration and erosion.	Low	
170602100503	jparadiso	8/4/2006	Decommission stacked roads.	High

170603020201	kthompson	4/19/2006	Treat weed infestations.	Medium	
170603020202	kthompson	4/19/2006	Genetic analysis of WCT.	Medium	
170603020203	kthompson	4/19/2006	Brook trout eradication in lakes.	Medium	
170603020203	kthompson	4/19/2006	Evaluate genetic status of WCTxYCTcutthroat; identify actions necessary to preserve genetic integrity of native species.	Low	
170603020204	kthompson	4/19/2006	Monitor brook trout for changes in distribution or abundance.	Medium	
170603020205	kthompson	4/19/2006	Treat weed infestations.	Medium	
170603020205	kthompson	4/19/2006	Monitor brook trout in Balanger Creek for changes in distribution or abundance.	Low	
170603020301	kthompson	4/19/2006	Area closure to cross-country OHV travel.	High	
170603020301	kthompson	4/19/2006	Restoration of chronic sediment delivery from OHV trails and stream crossings.	High	
170603020305	kthompson	4/19/2006	Monitor brook trout for changes in distribution or abundance.	Medium	
170603020305	kthompson	4/19/2006	Eradicate brook trout from Red and Buck Lakes.	Medium	
170603020306	kthompson	4/19/2006	Evaluate and eliminate livestock grazing impacts in East Fork Five-Mile Creek.	Medium	
170603020306	kthompson	4/19/2006	Stabilize landslides and sediment delivery along Falls Point Road.	High	
170603020307	kthompson	4/19/2006	Research and monitoring.	High	
170603020401	kthompson mgerhardt	4/10/2006	Decommission high failure risk roads and stacked roads.	Medium	
170603020401	kthompson mgerhardt	4/10/2006	Road maintenance on open roads. Reconstruct Falls Pt. Road.	Medium	
170603020401	kthompson mgerhardt	4/10/2006	Correct chronic sediment sources from headwater stream crossings.	Medium	
170603020401	kthompson mgerhardt	4/10/2006	Replace 3 stream crossings to provide fish passage.	Medium	
170603020402	kthompson mgerhardt	4/10/2006	Reconstruct lower 3 miles of Fog Mt. Road.	High	
170603020402	kthompson mgerhardt	4/10/2006	Eradicate or suppress brook trout populations from 1-3 lakes.	High	
170603020403	kthompson mgerhardt	4/10/2006	Replace culvert on Boyd Creek stream crossing. Remove Boyd hatchery cement footing.	High	
170603020403	kthompson mgerhardt	4/10/2006	Road maintenance and drainage improvement on gravel section of Selway River road.	High	
170603020404	kthompson mgerhardt	4/10/2006	Road maintenance on streamside roads. Decommission FS 651 road from mouth of O'Hara into Hanby.	High	
170603020404	kthompson mgerhardt	4/10/2006	Plant streamside areas previously harvested.	Medium	
170603020405	kthompson mgerhardt	4/10/2006	Decommission roads on landslide prone terrain.	High	
170603020405	kthompson mgerhardt	4/10/2006	Plant streamside areas previously harvested.	Medium
