BARRY POINT FIRE

INCIDENT ACTION PLAN

DAY OPERATIONAL PERIOD
MONDAY, AUGUST 27, 2012
0700-2000

OR-FWF-120680

P6G47N

BLM – G47N

INCIDENT OBJECTIVES	1. Incident Name Barry Point	2. Date Prepared 08/26/2012	3. Time Prepared 1600

4. Operational Period – 08/27/2012 Day 0700 - 2000

Mission: Maintain current fire suppression efforts to keep fire within established control lines. Shift operational activities to fire suppression repair while ensuring safety, integrity, and positive community relationships are maintained.

Strategy: The Barry Point incident management strategy is based on "Values at Risk." Firefighters, the public and other incident responders being the highest value. We will engage in our operational activities on our terms at the appropriate tempo, where probability of success is high and the risk is acceptable. A combination of tactics and lines of effort will be employed with consideration of values at risk noted above as well as communities, private property and infrastructure.

Management Objective:

- Implement good risk management practices in order to provide for firefighter, other responder and public safety. Use good risk analysis processes, the principles of the 10 Standard Fire Orders, LCES and the 18 Watch-Out Situations as the foundation for risk decisions at all levels.
- Use aggressive outreach to insure timely and accurate dissemination of information regarding fire related activities is provided to the public, land owners, cooperators, elected officials and other stakeholders.
- Utilize efficient and effective business practices to manage the fire cost, which should be in alignment with the identified values to be protected. Cost to be tracked in accordance with the approved cost share agreement and maintain records and systems that allow for daily apportionments.
- Ensure that relationships are maintained or enhanced with local land owners, business owners, the general public and other key stakeholders.
- Coordinate with identified personnel from ODF, the Districts and both Forests regarding resource considerations, and WFDSS inputs.
- Maintain property accountability within national direction for acceptable fire loss / use rates.

Operational Objectives:

- Continue to implement strategies for engaging in operational activities that will help ensure coordinated efforts for mission success.
    - Implement identified actions at the appropriate time to allow for the right operational tempo to accomplish mission and reduce risk to fire fighters, other assigned personnel and the public.
    - Utilize resource advisors for input to help minimize environmental concerns related to operational activities.
    - Validate daily the strategy / tactics and assure planned tactics will meet operational objectives.
    - Comply with Federal Aviation Policies on federal lands.
    - Implement the guidelines for fire suppression repair and other activities contained in the "Barry Point Turn Back Standards Plan."
- Utilizing operational strategies and tactics that minimize, impacts to private lands and structures, resource damage, economic impacts, and minimize the disruption to local activities and businesses where practical.
- Provide timely initial attack assistance to the forest and local agencies as requested.

Commanders Intent: To meet the intent of these objectives to provide the highest level of customer services for all involved with or affected by the incident, all incident assigned personnel should be prepared to take the appropriate actions regarding:

- Maintaining good situational awareness within the sphere of their operational area or work area.
- Utilize an approach based on doctrine and good management or business practices in all activities when engaging the fire or involvement with your incident assignment.
- Personal interactions with others both inside and outside the incident management organization or incident operational areas.
- Managing an incident-within-an-incident and knowing where the medical extraction points are located.
- Establishing and maintaining good 360-degree communications structures to ensure all critical and important messages reach the appropriate people in a timely manner.

Spot Forecast for Barry Point Fire
National Weather Service Medford
346 PM PDT Sun Aug 26 2012

IF CONDITIONS BECOME UNREPRESENTATIVE,CONTACT THE NATIONAL WEATHER SERVICE.

SPOT FORECAST FOR BARRY POINT...BLM
NATIONAL WEATHER SERVICE MEDFORD OR
355 PM PDT SUN AUG 26 2012

FORECAST IS BASED ON REQUEST TIME OF 1520 PDT ON AUGUST 26. IF CONDITIONS BECOME UNREPRESENTATIVE...CONTACT THE NATIONAL WEATHER SERVICE.

...RED FLAG WARNING IN EFFECT UNTIL 8 PM PDT THIS EVENING...

...DRIER CONDITIONS WITH SLIGHTLY WEAKER SOUTHWEST WINDS EXPECTED MONDAY AFTERNOON AND EVENING...

...FIRE WEATHER WATCH IN EFFECT FROM TUESDAY AFTERNOON THROUGH TUESDAY EVENING...

.DISCUSSION...WINDS ARE VERY GUSTY THIS AFTERNOON AND HUMIDITIES ARE TRENDING HIGHER COMPARED TO YESTERDAY. WINDS WILL DIMINISH TONIGHT WITH MODERATE RECOVERIES. TOMORROW...WINDS WILL TREND LOWER BY ABOUT 25 PERCENT COMPARED TO SUNDAY BUT HUMIDITIES WILL TREND LOWER BY ABOUT 5 PERCENT. SO...MONDAY WILL BE VERY DRY WITH GUSTY SOUTHWEST WINDS AGAIN. ON TUESDAY WINDS HAVE THE POTENTIAL OF INCREASING AGAIN...AND HUMIDITIES SHOULD INCREASE SOME AS WELL. NO THUNDERSTORMS ARE EXPECTED THROUGH THE WEEK WITH DRY...STABLE SOUTHWEST FLOW ALOFT.

.MONDAY...

SKY/WEATHER.....SUNNY. AREAS OF SMOKE IN THE AFTERNOON.
MAX TEMPERATURE.....76-78.
MIN HUMIDITY.....9-14 PERCENT.
EYE LEVEL WINDS.....SOUTHWEST WINDS 2 TO 4 MPH EARLY BECOMING SOUTHWEST 3 TO 5 MPH WITH GUSTS TO 8 MPH AFTER 1100L AND INCREASING TO 6 TO 8 MPH WITH GUSTS TO 13 MPH AFTER 1400L.
MIXING HEIGHT.....500 FT AGL IN THE MORNING INCREASING TO 5000 FT AGL EARLY IN THE AFTERNOON.
MIXING WINDS.....SOUTHWEST AROUND 20 MPH.
CWR.....0 PERCENT.
LAL.....1.
WIND (20 FT).....SOUTHWEST WINDS 4 TO 7 MPH EARLY BECOMING SOUTHWEST 6 TO 9 MPH WITH GUSTS TO 13 MPH AFTER 1100L AND INCREASING TO 11 TO 15 MPH WITH GUSTS TO 20 MPH AFTER 1400L.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: #2	TYPE OF FIRE: Wildland
FIRE NAME: Barry Point	OPERATIONAL PERIOD: 08/27/2012 0700-2000
DATE ISSUED: 08/26/2012	TIME ISSUED: 2000
UNIT: Fremont Winema National Forest/ Modoc National Forest	SIGNED: /s/ Tod Johnson

INPUTS

Fuels in the area are primarily cured grass and mixed grass and brush less than two feet tall, and timber with understory. Primary timber types are Ponderosa Pine, Western Juniper, and true fir. Brush and understory includes Mountain Mohagany, Bitterbrush, Sagebrush and Ceonothus. Snags are common throughout the area.

Fire behavior observations from 8/26/2012:
Creeping and smoldering continued well within the perimeters of divisions L, G and J. Most fire activity contained to the timber litter at the bases of Juniper and Ponderosa pine trees.
Weather observations: high temps 75-77, low humidity 21%, wind S/SW 12 with gusts to 19.

WEATHER SUMMARY

Expect continued clear yet hazy skies to persist through this burning period. Light southwest winds in the morning becoming 3-5 with gusts to mph, then expect eye level winds to increase after 1400 6 to 8 mph with gusts of 13 mph in the afternoon.
20 ft winds will be 4 to 7 southwest in the morning increasing 11 to 15 mph with gusts to 20 mph in the afternoon. Minimum humidity ranging from 9-14%. Max temps 76-78.

FIRE BEHAVIOR GENERAL

General: As sun, wind and slope align with warmer afternoon temperatures and lower humidity expect continued burnout of interior islands. Flame lengths 2-3 feet in pockets of timber with possibility of individual and group tree torching. Upwards of 1000 ft. spotting distances may be anticipated if torching trees are located in exposed areas such as ridgelines.

FIRE AREA: Anticipate islands of fuel to burnout within the perimeter. Watch for torching trees and lofting embers that can spot east of the established lines. Probability of ignition 60 - 70%.
The Fire behavior characteristics shown below are to be used as estimates for the type of fire behavior that can be anticipated in the possible event of a tree torching from inside the perimeter during peak forecast wind conditions and low humidity in divisions on the east side of the fire with active fire.

Short Grass: 25-30 chains per hour with 2-3 foot flame length

Grass and Shrub: 20-26 chains per hour with 8-10 foot flame length

Continued smoldering and creeping will continue within the unburned islands throughout the fire area.

AIR OPERATIONS: Expect another day of hazy flying conditions throughout the day. Sustained winds with and gusts in the afternoon.

SAFETY

Base your actions on current and expected fire behavior.
Always establish LCES
Remember the problem with communication is the illusion that it has taken place. Be sure to thoroughly brief personnel and be sure your instructions are understood and can be repeated.

Safety Message

INCIDENT NAME: Barry Point	OPERATIONAL PERIOD: Day 08/27/12

MAJOR HAZARDS:

- Driving
- Snags/Hazard Trees
- Air Operations
- Public Traffic
- Ruby Pipeline
- ATVs/UTVs
- Chippers
- Livestock on Roads
- Heavy Equipment

Review The ICS 206 Medical Plan and have your Module drill the "9 Line"!!!

NARRATIVE:

Transition

The fire transitioned yesterday. Transition is a time of change. Change may cause some confusion. We can mitigate this by patient, clear, objective and logical communications. Those of you who were here before transition can help show the new folks the way and help us get to the critical path. Paying attention to Fire Fighting Orders 6,7, and 8 will mitigate this confusion. Less confusion means more efficiency and a safer work environment.

Driving

- ✓ When you are watching someone backing up, why be a spectator when you can be a participator and offer to be their spotter.
- ✓ Drive defensively, leave plenty of stopping distance, slow down on curves.
- ✓ The long drive back to ICP can be time when we drop our guard. Don't become complacent.
- ✓ **Seat Belts are Mandatory, use them, no excuses.**

Snags and Hazards Trees

- ✓ Is the mission necessary? Identify flag and avoid if safe to do so. Use professional fallers.

Heavy Equipment

- ✓ Qualified operators and appropriate overhead. Close roads or trails if necessary for public safety. PPE including hearing protection. Make positive contact with operator before approaching. Maintain safe working distance from equipment.

- ✓ Many tragedies occurred in the mop-up stage. **Do Your Risk Analysis! IRPG Page 1**

SAFETY OFFICER:	John Prendergast, Kenneth Paul, Alan Johnston, Greg Vergari, Barry Hogge

8. Medical Emergency Procedures

In the event of a medical emergency provide the following information to the Communications Unit:

1. Declare the nature of the emergency
   Medical injury/illness? If injury/illness is it Life Threatening?
2. If Life threatening, then request that the designated frequency be cleared for emergency traffic.
3. Identify the on-scene point of contact (POC) by Resource and last name (i.e. PIC is TFLD Smith).
4. Identify nature of the incident, number injured, patient assessment (s) and location (geographic and GPS coordinates).
5. Identify on-scene personnel by position and name (i.e. .EMT Freshwater).
6. Identify preferred method of patient transport.
7. Request any additional resource and/or equipment needed.
8. Document all information received and transmitted on the radio or phone.
9. Identify any changes in the on-scene point of Contact or medical personnel as they occur.

HUMAN RESOURCE MESSAGE

BARRY POINT FIRE

Mutual Respect

Our most productive incidents are a result of maintaining and developing positive work relationships. We may wear different color t-shits, drive various kinds of rigs, and arrive here from all over the country. Yet in spite of those superficial differences, it is obvious that folks on this incident are taking the time to value each other and treat each other with respect to get the job done!

We have taken the responsibility of doing an excellent job and conducting our behavior in a positive and productive manner. I truly want to wish you a hearty thank you for being the professionals that you are!

Michael Donch, Human Resource Specialist

"Most people are about as happy as they make up their minds to be."
-Abraham Lincoln
