

Payson Ranger District: What Has Changed?

Impacts:

- **Increasing use** is degrading Payson recreation areas
 - As an example, one can't tell where one campsite ends and another begins along all waterways during summer months
- **Fewer resources** for maintenance of facilities, recreation, education, and general cleanup of sites
- **Substantial OHV impacts** resulting in illegal roads and illegal wilderness intrusions
- **Increasing gap** between public expectations and our ability to respond to them
