

Barry Point Fire

Incident Action Plan

Friday-Saturday

August 17-18, 2012

Night Operational Period

1800-0600

OR-FWF-120680

FS - P6G47N

BLM - G47N

INCIDENT OBJECTIVES

1. Incident Name

Barry Point

2. Date Prepared

08/17/2012

3. Time Prepared

2100

4. Operational Period – 8/17-8/18/2012 NIGHT 1800-0600

Management Objective:

- Implement good risk management practices in order to provide for firefighter, other responder and public safety. Use good risk analysis processes, the principles of the 10 Standard Fire Orders, LCES and the 18 Watch-Out Situations as the foundation for risk decisions at all levels.
- Use aggressive outreach to insure timely and accurate dissemination of information regarding fire related activities is provided to the public, land owners, cooperators, elected officials and other stakeholders.
- Utilize efficient and effective business practices to manage the fire cost, which should be in alignment with the identified values to be protected. Cost to be tracked in accordance with the approved cost share agreement.
- Ensure that relationships are maintained or enhanced with local land owners, business owners, the general public and other key stakeholders.
- Coordinate with ODF, the District and Forests resources regarding resource considerations, and WFDSS inputs.
- Develop strategies that have high probability of success for the overall suppression efforts on the incident.

Operational Objectives:

- Continue to implement strategies for engaging the fire that will help ensure coordinated efforts for mission success.
 - Implement identified actions at the appropriate time to allow for the right operational tempo to accomplish mission and reduce risk to fire fighters.
 - Where it can be safely done, minimize acreage burned, damage to private property and improvements.
 - Utilize resource advisors for input to help minimize environmental concerns related to operational activities.
 - Assess daily the validity of the strategy and tactics and assure planned tactics will meet suppression objectives.
- Utilizing operational strategies and tactics that minimize, impacts to private lands and structures, resource damage, economic impacts, and minimize the disruption to local activities and businesses where practical:
- Provide timely initial attack assistance to the forest and local agencies within the TFR or as requested.

Commanders Intent: To meet the intent of these objectives to provide the highest level of customer services for all involved with or affected by the incident, all incident assigned personnel should be prepared to take the appropriate actions regarding:

- Maintaining good situational awareness within the sphere of their established work areas.
- Personal interactions with others both inside and outside the incident management organization or incident operational areas.
- Managing an incident-within-an-incident and familiarities with medical extraction points.
- Establishing and maintaining good 360-degree communications structures to ensure all critical and important messages reach the appropriate people in a timely manner.

Strategy: The Barry Point incident management strategy is based on "Values at Risk." Firefighters, the public and other incident responders being the highest value. We will engage the fire on our terms at the appropriate tempo, where probability of success is high and the risk is acceptable. A combination of tactics will be employed with consideration of values at risk noted above as well as communities, private property, and infrastructure. Tactical actions are based on the principles of point defense and a mix direct / in-direct effort as dictated by the situation.

The following are guiding principles.

- The **Right Plan** (i.e., as informed by the Risk Decision Framework)
- In the **Right Place** (i.e., where we have a reasonable probability of success)
- At the **Right Time** (i.e., when we have favorable conditions for efficient and effective suppression)
- With the **Right Assets** (i.e., those suppression assets needed to safely implement tactics in support of reasonable objectives)
- For the **Right Duration** (i.e., release resources as soon as they are no longer needed)

INCIDENT Weather Forecast

FORECAST NO: 18

NAME OF FIRE: Barry Point

PREDICTION FOR: Night SHIFT

UNIT: Fremont-Winema NF

SHIFT DATE: Aug. 17-18, 2012

SIGNED: *Carl S. Corniglia Jr.*

TIME AND DATE

Incident Meteorologist

FORECAST ISSUED: Aug. 17, 2012, 1200 PDT

WEATHER DISCUSSION: An upper low well offshore will direct monsoonal moisture north over the region tonight. Widely scattered thunderstorms are expected to develop this evening with showers and thunderstorms increasing in coverage through the night. The initial thunderstorms this evening will likely be largely dry with a greater potential to generate strong gusty winds. The storms will become wetter through the night. The general wind is expected to swing around to north late this evening then east to southeast overnight. **Note** - Thunderstorms imply the possibility of gusty and erratic winds under and a distance away from the thunderstorm.

...Red Flag Warning in Effect Through 8 pm PDT Saturday for Abundant Lightning and Dry Fuels...

WEATHER FORECAST: Tonight

WEATHER: Partly cloudy this evening then becoming mostly cloudy. Chance of an evening thunderstorm then scattered showers and thunderstorms after midnight.

MIN TEMPERATURE: 60-65.

MAX HUMIDITY: 45-55% in the absence of rain.

20 FT WINDS:

BRANCH II: West to northwest wind 3 to 5 mph becoming light after 2100. Wind becoming east to southeast 3 to 6 mph across the ridges after 0300.

BRANCH III: West to northwest wind 3 to 5 mph becoming north to northeast 4 to 8 mph after 2200.

BRANCH I & IV: Northwest wind 4 to 8 mph becoming northeast 5 to 10 mph after 2200 then east to southeast after 0300. Occasional gusts to 15 mph.

HAINES INDEX: 4 (Low)

LAL: 3

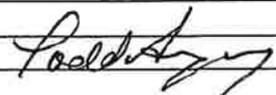

OUTLOOK FOR SATURDAY: Mostly cloudy. Scattered showers and thunderstorms. Highs 80-85. Minimum RH 20-25%. South to Southwest winds 5 to 15 mph with possible gusts to 25 mph.

EXTENDED FORECAST:

SUNDAY: Partly cloudy. Slight chance of a shower or thunderstorm in the morning. Lows 48-53. Highs 82-87. Minimum RH around 20%. Southwest winds 5 to 15 mph.

MONDAY: Mostly clear. Lows 42-47. Highs 81-86. Minimum RH 15-20%. West winds 5 to 10 mph.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: #18	TYPE OF FIRE: Wildland
FIRE NAME: Barry Point	OPERATIONAL PERIOD: Night 08/17/2012
DATE ISSUED 08/17/2012	TIME ISSUED: 1200
UNIT: FRF	SIGNED: /s/ Todd Gregory FBAN 

INPUTS

FUELS

Fuels in the fire area are primarily composed of **cured grass**, mixed **grass and brush** (less than 2 ft. tall), and timber **with understory**. Primary timber species include mixed-sized Ponderosa Pine, Western Juniper, and True Fir (at higher elevations). Brush and understory includes Mountain Mahogany, Bitterbrush, conifer dog-hair thickets, sagebrush, and Ceonothus (at higher elevations). Snags are common throughout timbered areas and may contribute to spotting. Live fuels will contribute to fire intensity and rate of spread.

WEATHER SUMMARY

See fire weather forecast for detailed information.

FIRE BEHAVIOR INPUTS

Last nights activity can be expected again if winds develop. Wind will become an ever increasing factor in fire behavior as a more normal diurnal pattern develops. Forecasted spread rates are amplified by profuse spotting. Dry fuels combined with wind increases the potential for large fire growth.

*** Fine fuel moisture near 15%***

Bitterbrush moisture 90%, Sagebrush 50%-60% Probability of Ignition (PIG) 15-35%

Fuel Type	Rate of Spread	Flame Length	Spotting Distance
Grass (GR2)	8-20 ch/hr.	2-3 feet	0.1 mile
Grass with mixed shrub (GS2)	3-11 ch/hr	1-2 feet	0.3mile
Timber with Understory (TU5)	4-6 ch/hr	2-4 feet	0.3 mile
<i>*GS2 - primary spread fuel type</i>	<i>*forecasted winds</i>		<i>*from flare-ups</i>

SPECIFIC:

DIV A, B, AA, N, Z Patrol and Mop-up.

DIV C, D Any easterly winds will test control lines. Any torching tree is a potential spot fire.

DIV E, F, G Humidity recovery is forecast in the 50% range. Higher humidity will help hold fire inside containment lines.

DIV J, L Higher humidity during the night will reduce spotting. Timber fuels will continue to burn openly but spreading will lessen as the humidity comes up later in the period. Winds will be variable through the shift so anticipate spread direction changes.

DIV M Expect variable winds through the shift. Any torching tree is a hazard. Any winds coming from the south will test lines.

- **All Division watch for gusty outflow winds if T-storms develop in the area.**

AIR OPERATIONS: No issues with smoke anticipated.

FIRE BEHAVIOR SAFETY

This fire has shown its ability to move very quickly by torching and spotting. It can be expected to do the same again. Keep alert for changing conditions as this will be a very dynamic period.

Safety Message

PNW Team 2

INCIDENT: Barry Point Fire

OPERATIONAL PERIOD: Night 08-17-12

TOPICS:

**Driving Safety
Lookouts, Communications, & Safety Zones
Hazard Trees & Snags**

NARRATIVE:

Driving & Transportation

- Narrow poorly marked roads, smoke and poor visibility, rough dirt roads and other vehicles on the road, are all present when we travel to and from our work assignments. Any of these hazards can result in serious injuries or worse.
 - Avoid distractions that could divert your attention from the road.
 - Drive with lights on to increase your visibility to other drivers.
 - Always wear seatbelts.
 - Keep your windshield clean.
 - Slow down, drive with due regard and defensively

Lookouts, Communications, Escape Routes, and Safety Zones

- Assign experienced firefighters to be your lookouts. Make sure they can see the fire AND your work area. Communicate frequently to maintain your situational awareness.
- Make sure you can also communicate with your crewmembers, division supervisor, adjacent forces, and Arapaho Communications.
- Find, flag, and brief the location of escape routes before engaging the fire. Always have a Plan B if your primary escape route is compromised. Estimate escape time based on the slowest crewmember.
- Be realistic about how big your safety zone needs to be. If you need to use it, the fire will be up and moving and probably a lot hotter than when you went in to work the fireline. You should be able to stay in the safety zone without needing a fire shelter.

Hazard Trees – Snags

Hazard Trees or snags account for approximately 10% of the wildland firefighter deaths annually. Our incident has numerous snags. Mitigations include:

- Identify Hazard Trees/Snags. Flag them and report them to your Division or Group Supervisor.
- Have hazard trees felled by qualified fallers. NEVER work near hazard trees.
- Look up, look down, and look around.

Remember Everyone Goes Home!

SAFETY OFFICER

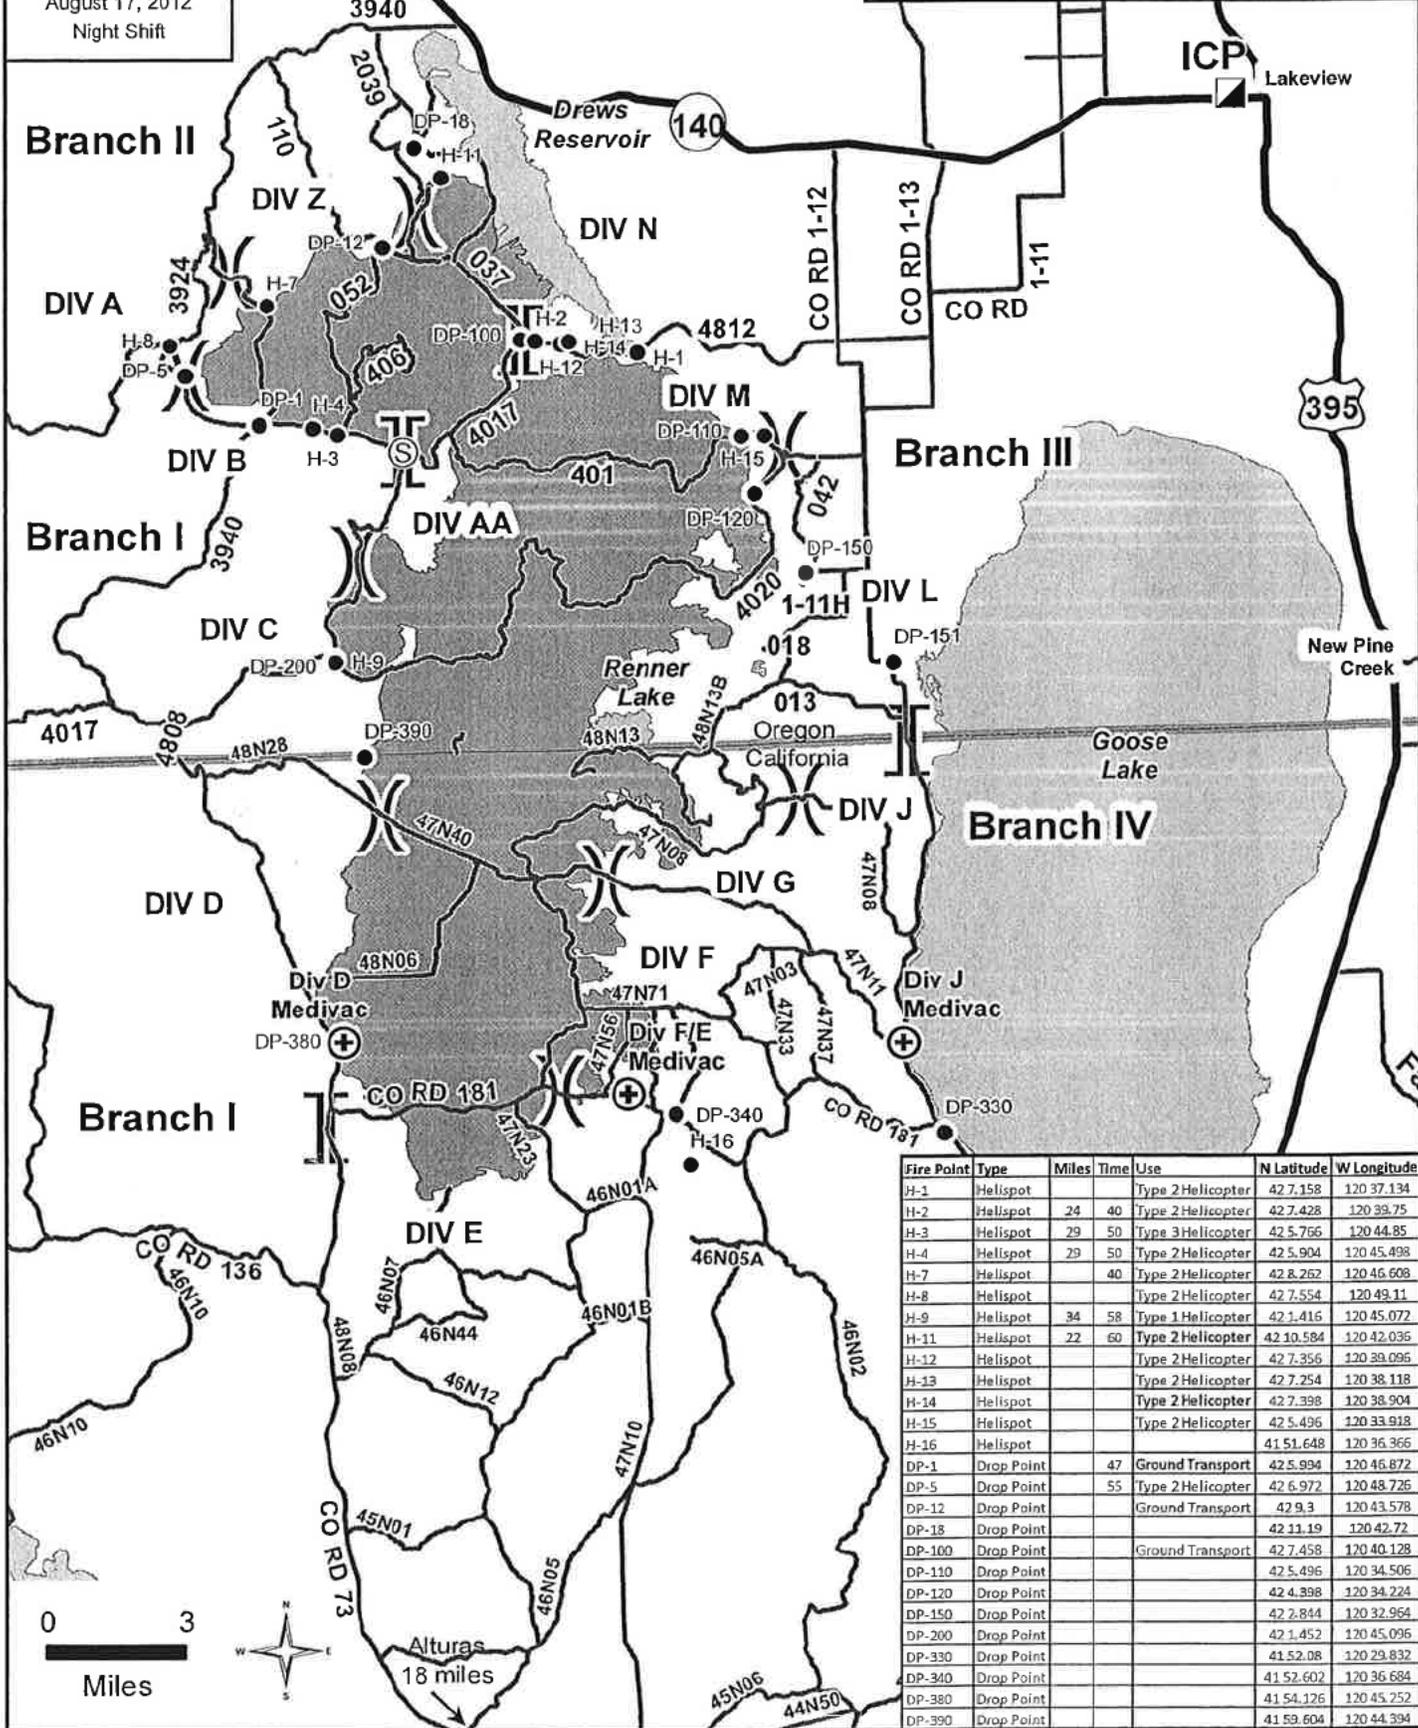

Craig Dixon SOF, *Greg Vergari* SOF, *Sam Phillips* SOF (t)

8. Medical Emergency Procedures					
In the event of a medical emergency provide the following information to the Communications Unit:					
1. Declare the nature of the emergency Medical injury/illness? If injury/illness is it Life Threatening?					
2. If Life threatening, then request that the designated frequency be cleared for emergency traffic.					
3. Identify the on-scene point of contact (POC) by Resource and last name (i.e. PIC is TFLD Smith).					
4. Identify nature of the incident, number injured, patient assessment (s) and location (geographic and GPS coordinates).					
5. Identify on-scene personnel by position and name (i.e. EMT Freshwater).					
6. Identify preferred method of patient transport.					
7. Request any additional resource and/or equipment needed.					
8. Document all information received and transmitted on the radio or phone.					
Identify any changes in the on-scene point of Contact or medical personnel as they occur.

Incident Radio Communications Plan

1. Incident Name
BARRY POINT

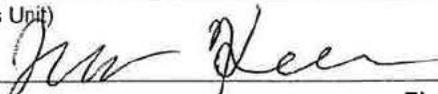

2. Operational Period
08/17/12 Friday Night Shift 1800 - 0600

3. Basic Radio Channel Utilization

Radio Type	Channel	Function	Frequency/Tone	Assignment	Remarks
King	1	TAC 1	(b) (6)	Division AA/A/B/N/Z	(Narrow)
King	2	TAC 2	(b) (6)	Division M	(Narrow)
King	3	TAC 3	(b) (6)	Division L	(Narrow)
King	4	TAC 4	(b) (6)	Division D/E/C	(Narrow)
King	5	TAC 5	(b) (6)	Division F/G	(Narrow)
King	6	Command 6	(b) (6)	Branches II & III	Grizzly Peak (Narrow)
King	7	Forest Net Rptr	(b) (6)	All DIV	(Narrow)
King	8	Command 8	(b) (6)	Branches IV	Sugar Hill (Narrow)
King	9	Command 9	(b) (6)	Branches III & IV	Fitzwater (Narrow)
King	10	Command 10	(b) (6)	BR. 1 SW of Fire	Blue Mt. (Narrow)
King	11	PRI A/G	(b) (6)	All DIV	Primary (Narrow)
King	12	Sec A/G	(b) (6)	All DIV	Secondary
King	13	TAC 13	(b) (6)	Unassigned	(Narrow)
King	14	AIR GUARD	(b) (6)	All DIV	AIR/GRND EMER. CONTACT (Narrow)
King	16	AIR GUARD	(b) (6)	All DIV	AIR/GRND EMERGENCY CONTACT (Narrow)

4. Prepared by (Communications Unit)

Jeff Keener COML

5. Date Prepared

08/17/12

6. Time Prepared

1151

Barry Point Logistics

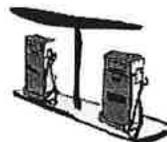

Hours of Operations

Fuel

-ICP 0600-2200 (accepts visa/mastercard/voyager)

South of HWY 140

-Hunters RV (accepts visa), Hwy 395 North near Ranger Station, Mon-Fri 0600-2000, Sat/Sun 0700-2000

ICP Ground Support/Mechanic 0600-2200

ICP Medical 0530-2200

ICP Communications 24/7

Showers 0500-2300

Supply Cache 0530-2200

Ordering 0600-2200

Food Breakfast 0500-1030 and Dinner 1700-2230

Laundry Drop off at Supply anytime. If dropped off by 0900, will be ready by 0900 next day.

Barry Point Fire Human Resource Message

We, the fire fighting community, are growing in numbers. It is critical for us to work together as a team in order to meet our mission objectives. This fire will be caught only with a lot of cooperation and determination. When we work as professionals who are considerate of each other, our job is made much easier. Please take the time to thank those who are giving it their all. Your efforts are appreciated by the public but even more by your fellow firefighters. Spend the time to encourage your crews. Practice Mutual Respect and stop Sexual Harassment and Discrimination on all fires.

Thought for the day

The Really Great Person is the one
Who makes
Everyone else feel
Great

We now have a HRSP yurt in fire camp. Stop by and say hello

Bill Otani and Michael Donch
your Human Resource Specialists
