

Boomerang Salvage Timber Sale

Sale Area & Slash Disposal

Rio Grande National Forest
Conejos Peak Ranger District

Map 2 of 2

At a minimum, retain 50% of the slash 6 inches diameter and smaller within the stand; lop and scatter slash to a height of 2 feet or less.

All landing slash shall be piled for later burning by the Forest Service. Piles shall be reasonably compact and free of soil to facilitate complete burning. Piles will not be less than 6 feet in height. Piles shall be of a size and location which will not impair road use or result in damage to residual timber. Piles shall be located as least 30 feet from residual timber.

Purchaser shall fell all species over 6 feet in height not meeting minimum diameter specifications for Included Timber that are damaged beyond recovery by the Purchaser's Operations. All other stems shall be limbed to a stem diameter of approximately 3 inches, at which point the top shall be cut from the remainder of the stem. These stems shall be bucked into lengths shorter than 3 feet. All other slash shall be lopped and scattered throughout the unit to a height no greater than 2 feet, C6.7#.

Noxious weeds known to be in the sale area, B6.35
