Seasonal Advisory

- **Winter/spring conditions exist. Expect varying conditions on trails at this time.**
 - Please travel safely and be prepared for any winter conditions.
 - Always check [weather](#) and [avalanche conditions](#) prior to your outing.

Spring trail closures in effect

Every spring on the Holy Cross Ranger District of the White River National Forest, there are several trail closures that may alter hikers' plans.

The closures are there for the protection of wildlife during the sensitive birthing period and to protect soils, vegetation, watershed and fisheries during the mud season. We ask that you respect the following closures out of concern for our natural environment. These closures are for all recreation activities including foot, horse and bicycle travel.

Closures include:

- **The North Vail Trail** (#1896) in Vail: closed from April 15 to June 15;
- **Son of Middle Creek Trail** (#2136): closed from May 1 to June 15;
- **Paulie's Plunge/Stone Creek** (#2349): closed from May 1 to July 1;
- **Whiskey Creek** (#2348): closed from December 1 to July 1;
- **Two Elk Trail** (#2005) including Vail's Back Bowls and Blue Sky Basin: closed from May 1 to July 1.
- **Eastern Hillside** (#2347) and several other Trails in Beaver Creek and Arrowhead: closed from December 1 to July 1

The primary reasons for the trail closures are elk calving and migration. Spring is a sensitive time of year for pregnant and nursing females. The Colorado Division of Wildlife has determined that minimizing human disturbance with seasonal trail closures gives the animals time and space to nurse calves until they are strong enough to move with the herds.

Muddy trail conditions are another important reason for seasonal closures. Riding, hiking, running or horseback-riding on muddy trails can cause significant damage to trails that can be difficult and expensive to repair.

*This report is a general description of the broader area; all conditions are subject to change. Remember to always bring a map, compass, and be prepared for any conditions on the roads and trails.
