

Nantahala and Pisgah National Forests Plan Revision

May 2013 Sessions

The second round of Forest Plan Revision assessment information sessions for the Nantahala and Pisgah National Forests will be held on the last two Thursdays of May. The objective of these sessions will be to present more in-depth information on a selection of topic areas related to the existing condition of the forests, and share opinions and ideas on these topics. The tentative format will be concurrent information/discussion sessions on selected assessment items, including some that were of high interest at the initial round of meetings in February and March.

Topic areas likely to be addressed include: 1) ecological restoration, 2) early successional and other habitats, 3) recreation access and scenery, and 4) designated areas. Meeting participants will have an opportunity to participate in two or three topic discussions of their choice.

Franklin, NC - May 23rd at the Tartan Hall of the First Presbyterian Church (26 Church St, Franklin, NC 28734)

Asheville, NC - May 30th at the NC Arboretum (100 Frederick Law Olmsted Way, Asheville, NC 28806)

Meetings will run from 6:00 to 9:00 p.m.

We encourage participants to arrive at 5:30 to gather handouts and review materials prior to the meeting.

February/March 2013 Meetings

A meeting summary from the first round of meetings has been posted on the NC plan revision website at: www.fs.usda.gov/goto/nfsnc/nprevision. You can also review all comments that were submitted at the six public meetings as well as the responses to small group discussion questions.

You can submit comments to NCPlanRevision@fs.fed.us

Please help us go paperless – send your name and email address to NCPlanRevision@fs.fed.us with ‘email’ in the subject line.
