

Arapaho and Roosevelt National Forests Land and Resource Management Plan

Based on 1997 Forest Plan Data (map created 2009)

Recreation Opportunity Spectrum

The management direction shown on this map and defined in the Revised Land and Resource Management Plan or FEIS applies to National Forest System Lands only. The direction does not apply to private, state, or other ownerships (shown in white). The legal and administrative boundaries shown on this map are approximate. The location of land ownerships or legal designations are the best available at this time. Accurate landline locations are determined prior to the implementation of projects. Any discrepancies between this map and the map printed with the Forest Plan in 1997 are due to Forest Plan amendments.

- Not National Forest System Lands
- Wilderness Primitive (207,794 Acres)
- Semiprimitive Motorized (79,344 Acres)
- Roded Natural (668,251 Acres)
- Geographic Areas
- Wilderness Semiprimitive (41,031 Acres)
- Semiprimitive Nonmotorized (229,464 Acres)
- Rural (161,688 Acres)
- Wilderness Pristine (48,001 Acres)
- Primitive (52,175 Acres)
- Roded Modified (117,832 Acres)

0 2.5 5 10 Miles
Scale Approx. 1:215,000
