

I-5 / ORTEGA HIGHWAY INTERCHANGE IMPROVEMENT PROJECT

NO TRUCK ACCESS TO EASTBOUND ORTEGA HIGHWAY FROM THE SOUTHBOUND I-5 FREEWAY DURING FIRST STAGE OF BRIDGE CONSTRUCTION

Keeping You Moving

During the first stage of construction, while the south half of the Ortega Highway bridge over the I-5 freeway is being reconstructed, large vehicles measuring more than 40-feet in length and vehicles towing trailers with a combined length of more than 40-feet will not be able to exit the southbound I-5 off-ramp and maneuver a left turn (eastbound) onto Ortega Highway and will have to utilize alternate routes.

From the Southbound I-5:

- ★ Exit **Junipero Serra Road**
- ← Left on **Junipero Serra Road**
- Right on **Rancho Viejo Road**
- ← Left on eastbound **Ortega Highway**

- ★ Exit **Camino Capistrano**
- Right on **San Juan Creek Road**
- ← Left on **La Novia Avenue**
- Right on eastbound **Ortega Highway**
