Dear Forest Shareholder:

This project announcement letter serves to inform the public, any interested parties, and Forest permittees of the Wooley Creek Headcut Repair and Meadow Restoration Project, as authorized through the 2012 Fremont-Winema National Forest Programmatic Restoration Project Decision Notice (Programmatic DN). The project need and description is enclosed. This will be the only written communications provided for this project. Information about this project can also be found on our website at: <http://www.fs.usda.gov/goto/fremont-winema/wooleycreekheadcut/>.

Voiced concerns would be used to adjust the action or determine if it is appropriate to implement the action under the Programmatic DN or if the action requires its own National Environmental Policy Act (NEPA) process.

Implementation of this project using the Programmatic DN is subject to the appeal process for permittees as outlined in the decision and 36 CFR 251.
