Re: Mill Creek Restoration Project

Dear Mr. Cowley:

I am writing on behalf of the Utah Anglers Coalition (UAC), of which I am the Chairman. The UAC is a coalition of angling organizations, businesses, and individuals concerned about issues surrounding fishing and fisheries in Utah. One of our objectives is to protect and enhance the aquatic resources of the State of Utah.

The UAC has had the opportunity to be thoroughly briefed on the proposed Mill Creek Restoration Project. The projects' goals include restoring 'pure' Bonneville Cutthroat Trout to the Mill Creek drainage (Salt Lake County) and enhancing the stream corridor.

This project goes a long way toward preventing the environmental listing of the Bonneville Cutthroat. It will also provide an excellent educational opportunity for those who reside in the Salt Lake Valley.

The UAC is in complete support of the project. We look forward to continuing working with you to ensure its success.

Sincerely,

Paul Dremann
Chair, Utah Anglers Coalition

Cc: UAC
Mike Slater, UDWR
