

**ASHLEY NATIONAL FOREST
Duchesne Ranger District
Slab Canyon Allotment
2014 Annual Operating Instruction**

Permittee
BFR, LLC

Number of Livestock
80

Season of Use
July 1 to September 30

Grazing Schedule

Unit Name	Sequence	Dates of Use	Allowable Use
Lower Slab	1 st	7/1 – 7/21	50%
Giles	2 nd	7/22 – 8/13	50%
Shand	3 rd	8/14– 9/4	50%
Upper Slab	4 th	9/4 – 9/30	50%

The dates of use above are to be used guidelines. The primary determining factor for moving livestock from one unit to the other is utilization. As stated above, allowable use is 50% in all units. Permittees should closely monitor utilization. It is imperative that permittees do not allow cattle to graze to a point that the units have a “mowed” look to them (i.e. all grass seed heads and stalks have been removed from the plants), which indicates about 60% use or greater. When allowable use is met in each unit, the cattle need to be moved to the next unit.

A range technician will regularly visit the allotment throughout the summer to monitor permit compliance, forage utilization, and range improvements. Compliance of allowable use standards will be fully enforced. If compliance is not met, permittees will be sent notices of non-compliance and associated requirements to address the violation(s).

Grazing fees will be \$1.35 per head month this year. Fees must be paid through Lockbox collection procedures before livestock will be authorized to enter the National Forest.

Annual Operating Plan Meeting

Annual meeting was held March 11, 2014 at the Heber Ranger Station in Heber City, UT. Burke Roney and Amber Helmus were in attendance. The following items were discussed.

1. Burke mentioned they would like to reconstruct Point Spring. The headbox needs to be rebuilt and they also would like some poly pipe and a 12ft by 2ft water trough. Contact Amber for materials.

Maintenance of Improvements

All fences and water developments must be maintained before the cattle will be allowed to enter the allotment. Please contact our office when you have completed your maintenance. Do so at least five days before the cattle enter the allotment to allow us sufficient time to inspect these improvements. A Range technician may randomly inspect the improvements at any time.

Improvement Checklist

Improvement Number	Improvement Name	Improvement Number	Improvement Name
004404	Ridge Boundary Fence	004240	Slab Canyon Drift Fence
004424	Slab Canyon Drift Fence	436454	Shand Spring
436456	Point Spring	436458	Childs Spring
004390	Slab Canyon Waterline		

Noxious Weed Control

A concentrated effort is being made to control musk thistle, Russian knapweed, tall and regular whitetop, and other noxious weeds throughout the Roosevelt-Duchesne Ranger Districts and Duchesne County. Musk Thistle has been found in Slab Canyon. Your help is needed in finding and reporting all weed infestations. If you find weeds, please take contact Amber Helmus.

Actual Use Record

The actual use record and maintenance report needs to be **filled out and returned immediately** following the grazing season. We will contact you if we do not receive your report by October 31st. If anything comes up concerning the allotment or your permit, contact Amber Helmus at (435) 781-5205 or cell (435) 790-7058. Thanks for your cooperation and have a good summer.
