PROJECT DESCRIPTION/SPECIFICATIONS

SCOPE OF CONTRACT

It is the purpose of this contract to secure services for spraying Carbaryl insecticide application on approximately 137 designated pine trees depending on the bid price, to provide protection from mountain pine beetles. More specifically, there will be approximately 137 trees sprayed in the Pine Creek Campground the Yellowstone Ranger District of the Gallatin National Forest.

Required work includes all activities associated with spraying all bole surfaces of designated trees from the root collar to a height of 50 feet or to where the diameter of the trunk is less than 4 inches in diameter (whichever is lowest). The amount of spray applied must be sufficient to soak the bark (1 gallon/50 square feet of bark) at a concentration of 2 percent active ingredient (e.g.; 4 gallons of Carbaryl/ 100 gallons water).

The Contractor shall furnish all labor, equipment, supervision, transportation, supplies, and incidentals necessary to perform all work required, including the appropriate mix of Carbaryl insecticide. The contractor must be a licensed forest pesticide applicator per the Montana Department of Agriculture.

The low quote for purposes of award shall be the low amount for identified work, and therefore providing for accomplishment of the most features of work (number of trees sprayed) within the funds determined by the Government to be available at the time quotes are obtained.

LOCATION AND DESCRIPTION

The project areas are located on the Yellowstone Ranger District of the Gallatin National Forest. The location of the affected sites are contained in the attached maps.

There is 1 general project area for the Yellowstone Ranger District. **Project Area:** Pine Creek Campground is located approximately 11 miles southwest of Livingston, MT. Forest Service Roads are all gravel surfaced roads. Potential bidders are advised to review on-the-ground road conditions to ensure their vehicle equipment can access the project areas.

GOVERNMENT-FURNISHED PROPERTY

The government will furnish no property under this contract.

CONTRACTOR-FURNISHED PROPERTY

The Contractor shall furnish all insecticide, supplies and equipment necessary to complete the work. The Contractor's equipment and supplies shall meet the following minimum requirements:

1. The hose on Contractor's spray rig shall be capable of reaching at least 300 feet to allow the contractor to reach all trees designated for spray while keeping vehicles and spray rig on the developed roads.

2. The Carbaryl insecticide product must be new or one that has been properly stored for no more than one year from date of purchase.
3. The applicator must use a **hydraulic power sprayer with a minimum PSI (pounds per square inch) of 500**. A psi of 550 is preferred, if available. The nozzle should be a **washer nozzle with a #10 orifice**. Arrangements will be made to inspect equipment prior to commencement of work.
4. The Contractor is to furnish equipment needed to draft water for use from available sources (approved by government), including backflow prevention devices in order to prevent contamination.
5. Sticking agent for use in mixing with emulsifiable concentrate Carbaryl solutions (i.e., Sevein XLR, Carbarly 4F, and Carbaryl SL. **Do not** use wettable powders.
6. PH meter and additives necessary to obtain the required PH of 7.
7. Proper personal protective equipment (PPE) as stated on the chemical label and material safety data sheet (MSDS) shall be adhered to. Safety must meet federal, state and local requirements for insecticide application.
8. **Contractor Requirements – License/Permits:**
 - A. The Contractor must provide the documentation required in this section with the submitted proposal or quote.
 - A valid Restricted Use pesticide license from the Stat of Montana.
 - Proof of Worker’s Compensation coverage.
 - B. All insecticide applications shall be performed by, or directly supervised by a state licensed applicator. The applicator(s) and/or supervisor shall have a current and valid Montana State Professional Pesticide Applicator’s License.

SUPPLEMENTAL SPECIFICATIONS / ADDITIONAL INFORMATION

1. **Designated trees.** The trees to be sprayed on the Gallatin National Forest are all Lodgepole pine trees with a diameter at breast height (dbh) between 5 inches and 21 inches. To assist the bidder in determining the amount of chemical needed, the median diameter of trees in this contract for the Pine Creek Campground will be 13 inches. Each tree to be sprayed will be designated with plastic flagging tied around the tree bole, prior to the time of operation. At the time of spraying individual trees, the contractor will remove the flagging from the tree and dispose of properly. Forest Service will then paint a small spot on the base of the tree after the tree has been sprayed. Sprayed trees shall be recorded by a Government inspector. Flagging color will be disclosed at the Post Award conference.
2. **Environmental Conditions.** Spraying will only be conducted when wind speed is less than 8 mph as measured on site by contractor with a standard hand held anemometer to minimize drift of sprayed droplets. At least 4 hours of drying time is needed for the insecticide to adhere to the tree bark. No carbaryl application will occur when precipitation is expected within a four hour window following application. Spraying must also be done when bark is dry (Contractor shall follow label directions for application). No application will occur when temperature is below 40 degrees fahrenheit.

3. Chemical Formulation/Application/Mixing and Handling.

- a. A formulation of **carbaryl** will be used. It shall be registered for spruce beetles and be properly formulated and applied, following all label directions for spruce beetle applications. One of the following insecticides will be used for this treatment: Carbaryl 4L, Carbaryl 4F, Carbaryl SL or Sevin XLR with an added sticking agent. The insecticide shall be **liquid concentrate**. The application rate to be applied is specified on the label for bark beetle insecticide treatments. **An example:** The common trade name Carbaryl 4L®, at a recommended rate of 2% solution (5 fluid ounces per gallon water or 4 gallons/100 gallons, then apply 1 gallon/ 50 square feet of bark). **The insecticide, sticking agent and application rate will be disclosed to the Government at Post Award conference.**
- b. Mixing and loading of insecticide will be done in areas where accidental spills would not contaminate streams or other water sources.
- c. **Required level of application.** All bole surfaces, including the root collar, must be treated with the insecticide. All of the trees shall be *sprayed on all sides up to a minimum of 50 feet or to the point where the diameter of the trunk is less than 4 inches in diameter*, whichever is less. The applicator cannot choose to ignore a particular face of the tree due to a heavy component of tree branches on one or more bole faces. This means the applicator may have to reposition themselves to ensure coverage of all bole faces. The amount of spray applied per tree will vary depending on tree size, but must be sufficient to soak the bark to the point of runoff to ensure all bark crevices, bark flaps, and the root collar where beetles may enter the tree are thoroughly treated.
- d. The Contractor shall be in compliance with all applicable OSHA, EPA, manufacturer's directions, Montana State and federal requirements for handling insecticides, including storage, transportation, application and cleanup of spills. **A spill cleanup kit will be available with each spray vehicle.** The spill cleanup kit will include at least the following: shovel, box of large plastic bags, safety goggles, 10 lbs of absorbent material, rubber gloves, and protective coveralls.
- e. **Riparian Area Protection.** No carbaryl spraying shall occur within **100 feet** of any live water, including streams, creeks, rivers, or lakes.
- f. **Access to designated trees.** Contractor shall be required to keep the spray vehicle on established roads. All designated trees will be within approximately **300 feet** of an established road.

EMERGENCY SPILL PLANNING/ RESPONSE

Emergency Spill Planning: Pesticide spills, incidents and accidents are addressed Chapter 60 of Forest Service Handbook (FSH) 2109.14 Pesticide Use Management and Coordination Handbook. It is available for review at U.S. Forest Service offices.

Definitions of key Terms:

1. Hazardous Material: An umbrella term that includes pesticides and all other hazardous chemicals, hazardous wastes, hazardous substances and oil.

2. **Spills on Land:** An emergency spill is defined as a release of a hazardous material or petroleum product in amounts greater than normal consumer quantities (25 gallons for petroleum products and 5 gallons for pesticide products – either concentrated or mixed) must be reported.
3. **Spills on Water:** All chemical and petroleum product spills that have entered or threaten to enter water bodies are an emergency spill and must be reported. A sheen on water caused by a spill would constitute an emergency.

Required Spill Response Equipment: Spill response equipment will be available in the immediate vicinity of all pesticide application operations, on vehicles used to transport pesticides and/or where spills are most likely to occur. Recommended spill kit contents include the following, however modifications to spill kits may be made to consider site conditions and logistical considerations.

1. Rubber gloves
2. Rubber boots
3. Coveralls or rain suit
4. Safety glasses or goggles
5. Shovel, and/or broom
6. Polyethylene or plastic bags with ties or bucket(s)
7. 10-30 lbs absorbent or absorbent pads

Material Safety Data Sheets and pesticide labels will be reviewed and carried with all personnel involved in the handling of pesticides.

Roles and Responsibilities: The Contractor shall immediately notify the **Bozeman Interagency Dispatch Center at (406) 587-6719** for Gallatin National Forest spraying if an *Emergency Hazardous Material Spill* occurs. The information that should be reported is outlined in the “Spill Information and Reporting Form” – see below. Additionally, it is the Contractor’s duty to contact the appropriated state and county emergency response personnel and to satisfy any related reporting requirements. All clean-up costs associated with the hazardous material spill will be the Contractor’s responsibility.

Spill Response Plan: A spill plan shall be formulated and supplied with the proposal or quote.

Spill Response Form: See below “Spill Information and Reporting Form”.

NOTE: It is Forest Service policy NOT to use Forest Service employees or equipment for “hands-on” cleanup of hazardous materials. Only trained personnel can contain spills within the limits of their training.

INSPECTION AND ACCEPTANCE

The Contractor is expected to ensure that the work performed meets the standards established in this contract. The Government will inspect spray operations to verify compliance with specifications.

Inspection. Inspectors will examine the mixing and application of spray solutions to ensure compliance with all contract specifications. Inspection will be done concurrently with spray operations in such a way as not to interfere with contract operations. After the Contractor is satisfied that a tree has been sprayed according to specifications, and moves to another area, the Inspector will inspect and record the following:

1. Whether or not all bark surfaces were saturated to the point of runoff. This is a visual inspection, as well as a hands-on inspection which will entail digging around the root collar and peeling off bark to ensure that the tree has been saturated with insecticide.

2. To ensure spray is reaching the proper height or diameter of the tree, a minimum of 1 tree per 5 trees sprayed will be measured for spray height (spray is visible to 50 feet height) or diameter (spray is visible where diameter reaches 4 inches on the upper bole of the tree), as appropriate, depending on tree size.
3. If inspection determines a tree has not been sprayed according to specifications, the tree shall be re-sprayed at no extra cost to the Government.

Acceptance. If inspection determines a tree has not been sprayed according to specifications, the tree shall be resprayed. Final acceptance of work performed will be based on the Government's inspection results, which will be considered conclusive. If inspections indicate that tree(s) have not been sprayed in accordance with contract specifications, no payment will be made for that/those tree(s) until contract specifications are met. The Contractor or a designated representative is encouraged to observe the Government's inspections while they are underway.

PAYMENT

Payment will be made upon completion of the contract for each tree accepted during the inspection.

DELIVERY/PERFORMANCE

Contract time is 1 (1) day from the date of issuance of the Notice to Proceed. The *estimated start date for the project is August 19, 2013 and the completion date for the project is August 31, 2013.* Notice to proceed will be issued once access is determined open, to ensure trees are sprayed prior to beetle flight.

SITE TOUR

A site tour has not been scheduled for this project. For additional information on the Pine Creek Campground project area contact Andy Kelher at (406) 932-5155.

INSPECTION OF WORKSITE

Interested parties should take reasonable steps to ascertain the nature and location of the project area and the work to be completed, as well as the general and local site conditions which can affect the work and cost of performance. Failure to take actions described in this paragraph will not relieve the Contractor from the responsibility of properly estimating the difficulty and cost of successful completion of the work without additional expense to the Government.

DESIGNATION OF CONTRACTING OFFICER REPRESENTATIVE

Prior to the commencement of work, the COR will be designated. The COR is responsible for administering the performance of the work under this contract. In no event, however, will any understanding, agreement, modification, change order, or other matter deviating from the terms of this contract be effective or binding upon the Government unless formalized prior to the completion of this contract.

NOXIOUS WEEDS/EQUIPMENT CLEANING

Noxious weeds are any exotic plant species established or that may be introduced into the State which may render land unfit for agriculture, forestry, livestock, wildlife, or other beneficial uses and which is designated by the State's Department of Agriculture, or by the County's weed management district, or by other appropriate agencies having jurisdiction. A weed management district is any area of land identified for the purpose of weed management or control. Such an identified land area may be, but is not limited to one of the following: a project

or job site, a County, two or more Counties, or a National Forest.

To mitigate the anticipated impacts of spreading noxious species, the following precautions shall be used:

All equipment and vehicles to be used at the job site shall be cleaned and free of noxious weeds and their seeds prior to entrance onto the project site. The restriction shall include equipment and vehicles intended for off-road as well as on-road use, whether they owned, leased, or borrowed by the contractor or any subcontractor.

Cleaning shall consist of the removal all dirt, grease, debris, and materials that may harbor noxious weeds and their seeds. Cleaning shall occur off the project site.

Equipment, materials, and vehicles shall be visually inspected by the COR, or other designated Forest Service official, and certified in writing by the Contractor to be reasonably clean and weed free. Inspections will take place at a location agreed to by the COR and Contractor in advance of delivery to the job site. Equipment and vehicles shall proceed directly to the job site following the inspection. Materials, including delivery vehicles, delivered to the project site will also be inspected prior to entering the area.

The Contractor shall protect all existing vegetation from the introduction of noxious weeds, (1) at or near the work site, and (2) on adjacent property. The Contractor shall treat any introduced noxious weeds resulting from failure to exercise reasonable care in performing the work. If the Contractor fails or refuses to treat such weeds, the Contracting Officer may have the necessary work performed and charge the cost to the Contractor.

Certification of each piece of equipment or vehicles shall remain valid for the duration of the project as long as the identified subjects remain solely on the project. Off road equipment that leaves the job site shall be decertified before being allowed to return. Individual worker's vehicles shall be parked at a staging area that will be designated by the COR.

CAMPING AND FOOD STORAGE ORDER

On Forest Service Lands there has been a special order on food storage and camping issued. All food, beverages, and scented or flavored toiletries must be stored unavailable to bears at night and when unattended during the day. Attractants include canned food, pop, beer, garbage, grease, processed livestock or pet food, toothpaste, and chapstick. They must be hung at least 10-feet off the ground and 4-feet from any vertical support, or stored inside a bear resistant container or vehicle. Cars, pick-up cabs, enclosed horse trailers, hard sided campers or camper shells are all considered bear resistant. Food should be stored out of sight in vehicles. Coolers, pop-up campers, backpacks, and tents are not considered bear resistant.

AGAR 452.236-77 Emergency Response (NOV 1996)

(a) Contractor's Responsibility for Fire Fighting. (1) The Contractor, under the provisions of FAR clause 52.236-9, PROTECTION OF EXISTING VEGETATION, STRUCTURES, EQUIPMENT, UTILITIES, AND IMPROVEMENTS, shall immediately extinguish all fires on the work site other than those fires in use as a part of the work. (2) The Contractor may be held liable for all damages and for all costs incurred by the Government for labor, subsistence, equipment, supplies, and transportation deemed necessary to control or suppress a fire set or caused by the Contractor or the Contractor's agents or employees.

(b) Contractor's Responsibility for Notification in Case of Fire. The Contractor shall immediately notify the Government of any fires sighted on or in the vicinity of the work site.

(c) Contractor's Responsibility for Responding to Emergencies. When directed by the Contracting Officer, the Contractor shall allow the Government to temporarily use employees and equipment from the work site for

emergency work (anticipated to be restricted to fire fighting). An equitable adjustment for the temporary use of employees and equipment will be made under the CHANGES clause, FAR 52.243-4.

(iii) The Government will evaluate offers in accordance with the policies and procedures of FAR [Part 25](#). For line items covered by the WTO GPA, the Government will evaluate offers of U.S.-made or designated country end products without regard to the restrictions of the Buy American Act. The Government will consider for award only offers of U.S.-made or designated country end products unless the Contracting Officer determines that there are no offers for such products or that the offers for such products are insufficient to fulfill the requirements of the solicitation.

(h) *Certification Regarding Responsibility Matters (Executive Order 12689)*. (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals—

(1) o Are, o are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) o Have, o have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) o Are, o are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) o Have, o have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined*. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples.*

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for *Listed End Products (Executive Order 13126)*. (k) *Certificates regarding exemptions from the application of the Service Contract Act.* (Certification by the offeror as to its compliance with respect to the contract also constitutes its certification as to compliance by its subcontractor if it subcontracts out the exempt services.) (iv) The compensation (wage and fringe benefits) plan for all service employees performing work under the contract is the same as that used for these employees and equivalent employees servicing commercial customers.

(3) If paragraph (k)(1) or (k)(2) of this clause applies—

(i) If the offeror does not certify to the conditions in paragraph (k)(1) or (k)(2) and the Contracting Officer did not attach a Service Contract Act wage determination to the solicitation, the offeror shall notify the Contracting Officer as soon as possible; and

(ii) The Contracting Officer may not make an award to the offeror if the offeror fails to execute the certification in paragraph (k)(1) or (k)(2) of this clause or to contact the Contracting Officer as required in paragraph (k)(3)(i) of this clause.

FAR 52.219-28 Post-Award Small Business Program Rerepresentation (JUL 2013)

(a) *Definitions.* As used in this clause—

Long-term contract means a contract of more than five years in duration, including options. However, the term does not include contracts that exceed five years in duration because the period of performance has been extended for a cumulative period not to exceed six months under the clause at [52.217-8](#), Option to Extend Services, or other appropriate authority.

Small business concern means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (c) of this clause. Such a concern is “not dominant in its field of operation” when it does not exercise a controlling or major influence on a national basis in a kind of business activity in which a number of business concerns are primarily engaged. In determining whether dominance exists, consideration shall be given to all appropriate factors, including volume of business, number of employees, financial resources, competitive status or position, ownership or control of materials, processes, patents, license agreements, facilities, sales territory, and nature of business activity.

(b) If the Contractor represented that it was a small business concern prior to award of this contract, the Contractor shall rerepresent its size status according to paragraph (e) of this clause or, if applicable, paragraph (g) of this clause, upon the occurrence of any of the following:

(1) Within 30 days after execution of a novation agreement or within 30 days after modification of the contract to include this clause, if the novation agreement was executed prior to inclusion of this clause in the contract.

(2) Within 30 days after a merger or acquisition that does not require a novation or within 30 days after modification of the contract to include this clause, if the merger or acquisition occurred prior to inclusion of this clause in the contract.

(3) For long-term contracts—

(i) Within 60 to 120 days prior to the end of the fifth year of the contract; and

(ii) Within 60 to 120 days prior to the date specified in the contract for exercising any option thereafter.

(c) The Contractor shall rerepresent its size status in accordance with the size standard in effect at the time of this rerepresentation that corresponds to the North American Industry Classification System (NAICS) code assigned to this contract. The small business size standard corresponding to this NAICS code can be found at <http://www.sba.gov/content/table-small-business-size-standards>.

(d) The small business size standard for a Contractor providing a product which it does not manufacture itself, for a contract other than a construction or service contract, is 500 employees.

(e) Except as provided in paragraph (g) of this clause, the Contractor shall make the representation required by paragraph (b) of this clause by validating or updating all its representations in the Representations and Certifications section of the System for Award Management (SAM) and its other data in SAM, as necessary, to ensure that they reflect the Contractor's current status. The Contractor shall notify the contracting office in writing within the timeframes specified in paragraph (b) of this clause that the data have been validated or updated, and provide the date of the validation or update.

(f) If the Contractor represented that it was other than a small business concern prior to award of this contract, the Contractor may, but is not required to, take the actions required by paragraphs (e) or (g) of this clause.

(g) If the Contractor does not have representations and certifications in SAM, or does not have a representation in SAM for the NAICS code applicable to this contract, the Contractor is required to complete the following rerepresentation and submit it to the contracting office, along with the contract number and the date on which the rerepresentation was completed:

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

** NOTES APPLYING TO THIS WAGE DETERMINATION **

Under the policy and guidance contained in All Agency Memorandum No. 159, the Wage and Hour Division does not recognize, for section 4(c) purposes, prospective wage rates and fringe benefit provisions that are effective only upon such contingencies as "approval of Wage and Hour, issuance of a wage determination, incorporation of the wage determination in the contract, adjusting the contract price, etc." (The relevant CBA section) in the collective bargaining agreement between (the parties) contains contingency language that Wage and Hour does not recognize as reflecting "arm's length negotiation" under section 4(c) of the Act and 29 C.F.R. 5.11(a) of the regulations. This wage determination therefore reflects the actual CBA wage rates and fringe benefits paid under the predecessor contract.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A links to the Directory may be found on the WHD home page at <http://www.dol.gov/esa/whd/> or through the Wage Determinations On-Line (WDOL) Web site at <http://wdol.gov/>.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the

work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour decision to the contractor.
- 6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.
