BLM Agreement No. BAA111000
Fish and Wildlife Service No. _____
Cooperator Agreement No. _____

Exhibit B
2013
ANNUAL OPERATING PLAN
FOR COOPERATIVE FIRE PROTECTION AGREEMENT
Between
KERN COUNTY FIRE DEPARTMENT
And the
U.S. FOREST SERVICE, SEQUOIA NATIONAL FOREST
And the
USDI BUREAU OF LAND MANAGEMENT,
BAKERSFIELD FIELD OFFICE AND CALIFORNIA DESERT DISTRICT
And the
US FISH AND WILDLIFE SERVICE, KERN AND HOPPER MOUNTAIN NWRC

ANNUAL OPERATING PLAN

The Parties will meet annually, prior to the initiation of fire season to review and update the Annual Operating Plan (AOP). This annual review will be documented by signing and dating the review block on the signature page of this AOP. This AOP will include protection area maps for all Parties, rates for use of department equipment and personnel, lists of principal personnel, dispatching procedures, and any other items identified in this Agreement as necessary for efficient implementation. This AOP shall become attached to and be a part of the Agreement. This AOP takes effect as of the date of the last signature and will remain in effect until superseded by a new AOP or upon expiration of the agreement.

MUTUAL AID RESPONSE PROCEDURES

Mutual aid is the initial attack response by both Department and Federal agencies suppression resources that are identified in each Party's Emergency Command Center's run cards or computerized automated dispatch system (CAD). The Protecting Party will not be required to reimburse the Supporting Party for initial attack actions taking place in these areas within the first 12 hours (as identified in the Agreement) following initial dispatch of suppression resources. All assistance beyond this "Mutual Aid" period will be assistance by hire and will be billed retroactively for the full period from the time of initial dispatch.

Aircraft (fixed and rotary-winged) including pilot(s) shall always be Assistance by Hire, EXCEPT when the response is under a unified command and the fire threatens both local and federal jurisdictions. Fiscal responsibility for all aircraft will be determined by the ordering process, utilization and cost share agreements and will be documented in ROSS.

DESCRIPTION OF FEDERAL AGENCY DIRECT PROTECTION AREA (DPA)

The FEDERAL AGENCIES have the responsibility for prevention, protection and suppression of wildland fires on National Forest, Bureau of Land Management, Fish and Wildlife Service administered lands, and on adjacent or intermingled State and private forested lands as identified through written agreement.

THIS INCLUDES THE SEQUOIA NATIONAL FOREST, BUREAU OF LAND MANAGEMENT BAKERSFIELD FIELD OFFICE AND CALIFORNIA DESERT DISTRICT, FISH AND WILDLIFE SERVICE, KERN AND HOPPER MOUNTAIN NWRC.

DESCRIPTION OF DEPARTMENT DIRECT PROTECTION AREA (DPA)

The Kern County Fire Department has the responsibility for prevention, protection and suppression of structure and other non-wildland fires within the established fire district. These structures and lands protected by the Department are intermingled or adjacent to lands protected by the FEDERAL AGENCIES.

CLOSEST FORCES

The Department and the Federal Agencies agree to adopt the "Closest Forces" concept for initial attack. This philosophy dictates that the closest available appropriate resource regardless of ownership shall be utilized initially. The emphasis to get the closest appropriate resources to respond to initial attack fires" is in the best interest of both Parties. This concept of "Closest Forces" will also be applied to ongoing incidents whenever there is a critical and immediate need for the protection of life and property. Beyond initial attack, the "Closest Forces" concept is modified and the Protecting Party will request the most appropriate resource to aid in the suppression of a wildfire.

MOVE-UP AND COVER

"Move-up and Cover" is the reallocation of fire suppression resources from their established location to a temporary location. For this agreement, "Move-up and Cover" is limited to moving Supporting Party engine companies and dozers (if applicable) to Protecting Party facilities which have been temporarily vacated because of emergency activity. The Protecting Party may provide subsistence and lodging at no cost to the Supporting Party. Mutual Aid (if applicable) "Move-up and Cover" will be at no cost to the Protecting Party for the initial Mutual Aid period agreed to in this Agreement. While in the Mutual Aid period (if applicable), if the Supporting Party's resources are dispatched by the Protecting Party to a fire, Assistance by Hire will apply unless the fire is located in an area of predetermined aid (as agreed to in this Agreement). In no case will Federal Agency resources be held in "Move-up and Cover" status beyond the end of their 16 hour maximum duty day.

SINGLE POINT RESOURCE ORDERING

Any and all requests for emergency assistance and incident support on cross boundary incidents must be clear and precise and shall be processed and recorded through a single dispatching center identified by the Incident Commanders of both Parties (Unified Command) and supported by order and request numbers.

DISPATCHING SERVICES AND PRE-DESIGNATED UNIFIED ORDERING POINTS (UOP)

Due to safety concerns in dispatching multiple aircraft to an incident in the interagency area of Kern County, CCICC is pre-designated as the initial attack UOP when it involves one or more of the

FEDERAL agencies and Kern County. Once both a FED and Kern IC are on scene of the incident and in unified command and the DPA is determined then the UOP can be determined. See CA MOB Guide for more information on UOP.

Each dispatch office (CCICC and ECC) will dispatch their pre designated initial attack resources to incidents, CCICC will generate a ROSS order for aircraft and federal resources responding to the incident. At the discretion of ECC a ROSS order will or will not be created for them. Once the UOP is determined (CCICC or ECC) ROSS can then be transferred from CCICC to ECC or vice versa or merged into one ROSS incident at CCICC or ECC, whichever is the most efficient ROSS process.

On SRA/LRA DPA incidents within the interagency area where there is no FEDERAL response or presence, ECC will be the UOP.

Once federal agency or KRN resource presence on a unified command incident has terminated, the UOP will cease to exist and normal incident resource ordering will resume with CCICC or ECC.

The agencies operate communications centers as follows:

CCICC - The Central California Interagency Communications Center in Porterville providing dispatching services for SQF, Tule River Indian Agency (TIA) and Central California District (CND).

FICC - The Federal Interagency Communications Center in San Bernardino providing dispatching services for California Desert District (CDD).

ECC - The Emergency Communications Center in Bakersfield jointly operated by the Kern County and Bakersfield Fire Departments, and provides dispatching for Kern County.

- a. **“Kern River Valley Interagency Area”**—This area of Kern County, generally surrounding the Lake Isabella area, includes Direct Protection Areas of both Federal (SQF and CND), and State agencies (CAL FIRE - with KRN providing Initial Attack fire protection services by Agreement). Due to the inter-mix of DPA, it is agreed that CCICC will be the pre-designated initial attack AIRCRAFT ORDERING POINT in the “Interagency Area”

The “Interagency Area” is comprised of the following designated Response Areas:

Havilah	Claraville	Isabella	Breckenridge	Piute
Greenhorn	Democrat	Weldon	Kiavah	Kelso
Granite	Adelaide	Glennville	Domeland	Canebrake

CCICC will generate a Federal Order Number (SQF or CND prefix) for Resource Orders.

Outside of the Kern River Valley interagency area the UOP and aircraft dispatching will be determined by whose DPA the initial report of a fire comes in on and all resource orders will be processed by that dispatch office until someone gets on scene and can determine DPA if different.

- b. **CDD “BLM Protection Area”**

This area of Kern County, lying primarily east of the “Interagency Area”, is primarily CDD DPA. Therefore, the agencies agree that FICC will be the pre designated UOP in the “BLM Protection Area”.

The "BLM Direct Protection Area" is comprised of the following designated Response Areas:
 A-56 Jawbone B-54 Inyokern B-56 Mojave A-57 Castle Butte Wall B-57 White
 FICC will generate a CDD Order Number for all Resource Orders.

c. "KRN Protection Area"

This area of Kern County will be comprised of all areas outside the "Interagency Area" and "BLM Protection Area", exclusive of the Los Padres National Forest (LPF). This area is primarily SRA (KRN DPA) or Local Responsibility Area (LRA), with KRN providing fire protection. Therefore, the agencies agree that ECC will be the pre-designated UOP in the "KRN Protection Area".

ECC will generate a KRN Order Number for all resource orders.

SPECIAL MANAGEMENT AREAS

Each agency has a responsibility to protect life and property values, as well as resources threatened by wildfire on lands under its direct protection as part of its wildfire protection mission. All fire suppression action conducted by the Protecting Agency in its direct protection area and/or on lands of another agency will be consistent with Protecting Agency fire suppression policy.

Any restriction to normal firefighting techniques, such as the use of heavy mechanized equipment in Special Management Areas such as wilderness areas, wild and scenic rivers, road-less areas, and archaeological sites will be delineated on Protection Unit maps or otherwise identified. The Federal Agencies will provide an Agency Representative or Resource Advisor to advise the County on any special considerations that may influence suppression action on fires threatening or burning Federal Lands. The Incident Commander will consider special conditions, but retain final authority or implementation of mutually acceptable strategy and tactics.

COMMUNICATIONS AND FREQUENCY MANAGEMENT

The Parties agree to utilize the frequencies assigned by the Emergency Command Centers for the management of an incident. This includes the assigned Command and Tactical Frequencies. In the case where the Parties' administrative frequencies have not been assigned for those purposes, the use of those frequencies must be temporarily suspended. While away from the home geographic area and traveling to and from an incident, the Parties agree to suspend the use of their respective pre-assigned frequencies. These frequencies are licensed through the Federal Communications Commission for specific geographic areas and are not to be used outside those areas. Family recreational "walkie-talkie" type radios are prohibited from use while traveling to and from an incident or while on any federal incident.

SHARING FREQUENCIES

The Department agrees to authorize use by the Forest Service of the following frequencies:

Command Nets:	SEE EXHIBIT D		
Tactical Nets:	SEE EXHIBIT D		

These frequencies will be used for fire/emergency only within or adjacent to the Department's responsibility area.

The Federal Agencies agree to authorize use by the Department of the following frequencies:

Command Nets:	SEE EXHIBIT E		
Tactical Nets:	SEE EXHIBIT E		

These frequencies will be used for fire/emergency only within or adjacent to the Forest Service's responsibility area.

ICS QUALIFIED LIST AND IMT PERSONNEL

KRN resources may be available for Geographic Area and National assignment through this system and as members of Incident Management Teams.

The list of qualified personnel is maintained by the Department's Command/Dispatch Center. The resources may be available on an Assistance-by-Hire basis depending on Party's drawdown and commitments.

THE USE OF TRAINEES

Both Parties agree to the use of trainees when practical; however, the automatic dispatch of or use of trainees will not occur without prior approval of the hosting unit or Incident Commander. Department trainees identified in the IMT Priority Trainee lists are pre-approved. The Federal Agencies agree to pay

for the Department's trainees that are pre-approved and/or attached to a Type 1 or Type 2 IMT and type 3 organizations.

All other Department trainees that are not pre-approved will be the cost responsibility of the sending unit.

PAYMENT OF STRUCTURE PROTECTION

For wildfires within the Department's or Federal DPA, the financial responsibility for the protection and suppression of structures remains with the Party who has statutory responsibility for structure suppression and protection.

For incidents involving both Department and Federal DPAs the cost share agreement should reflect the Department's structure protection/suppression responsibilities and financial obligation within its jurisdiction.

In situations when the Department orders additional resources and initiates additional actions beyond the level deemed necessary by the unified command, the Department is responsible for the costs.

REIMBURSEMENT RATES AND METHODOLOGY (non-aviation)

Department Personnel and Equipment:

Reimbursement for personnel will be based on personnel rates on file with the California Emergency Management Agency (Cal EMA) at the time of the incident and reimbursement methodologies outlined in the California Fire Assistance Agreement (CFAA).

The Department and Federal Agencies acknowledge the special legal requirements of each Party to provide backfill coverage (to respond to subsequent emergencies) that becomes necessary as a result of the execution of the Agreement. Actual costs associated with backfill needs are not reimbursable. Reimbursement rates and methods under the CFAA are designed to provide financing for backfill needs.

Personnel that routinely respond to emergencies (Chief Officers, Company Officers, and Firefighters) will be reimbursed portal to portal for time committed to the incident. All other personnel (civilian) will be reimbursed for actual time worked on the incident unless there is a MOU or governing body resolution that dictates the specific position is to be reimbursed portal to portal for the time committed to an emergency incident. The MOUs or resolutions must not be contingent on this agreement or executed on the sole basis that there is reimbursement from the federal or state agency. Firefighters also include crew members, helicopter pilots and dozer operators.

Reimbursement for equipment will be based on the CFAA Rate Letter applicable at the time of the incident. The Protecting Party will provide fuel and lubricants while the equipment is on the incident. The Supporting Party will provide fuel and lubricants while the equipment is en route to the incident and while returning to the home unit. The Protecting Party shall pay or reimburse for damages in excess of normal wear and tear, and shall replace or reimburse items lost or destroyed, except for damages occurring as a result of negligence by the Supporting Party.

Organized Emergency Crew resources including Type 1 and 2 crews, Fuels Crews, and flight crews will be reimbursed at actual hours worked per day consisting of straight and overtime as applicable unless labor agreements otherwise specify. Rates for these crews will be developed, agreed to in advance and published annually herein.

An Administrative Rate can be added to the total of the personnel, support equipment, and other approved reimbursements. The current standard Administrative Rate is 10% unless the Department has submitted an agency specific administrative rate to Cal EMA under the CFAA. The rate on file with Cal EMA at the time of the incident will be used.

The Department will prepare a FSLA-5 (Record of Activities). The FSLA-5 and supporting documentation is the basis for reimbursement and invoice preparation. This form is provided by the Forest Service and is attached as Exhibit C to this agreement. The form FSLA-5 must be signed by a responsible officer of the Department and by the Forest Service Incident Commander or Finance Chief and attached to the invoice.

For Reimbursement under the terms of this agreement all resource orders must be dispatched and processed by the CCICC or FICC Emergency Communication Centers. Any request not dispatched or processed by these ECC's will not be reimbursed under this local agreement.

Federal Agency Personnel and Equipment:

Reimbursable Federal Agency costs will include actual costs associated with the direct fire operations and incident support ordered by or for the incident (except as otherwise described as reciprocal initial attack as identified herein, and independent action situations). The Department will be billed for support to incidents that are the jurisdictional responsibility of the Department.

The Administrative Rate for the Federal Agencies is published in the agency's Annual Program Direction.

ASSISTANCE BY HIRE AND RESOURCE ORDER PROCESS

County personnel, equipment and aircraft will also be available for dispatch outside the interagency area through CCICC in coordination with Southern California Geographic Area Coordination Center (OSCC) utilizing the *Parent Agreement*. CCICC will be the dispatch center to mobilize all County resources ordered for Federal incidents outside the areas of the Agreement. When orders are received by KRN ECC for Federal incidents, fill information will be provided to CCICC. CCICC will make all travel arrangements for County overhead personnel, following Federal mobilization procedures (CCICC Operating Plan and the California Mobilization Guide). Travel arrangements will be made from the FD home unit or residence whichever is closest to the incident or reporting location. Any travel not authorized by the incident will not be reimbursed. County will submit a bill for reimbursement to the Federal Agencies, including actual costs to the County and an Administrative Charge.

Orders for COUNTY personnel on California Incident Management Teams (IMT) will be ordered direct from the incident host GACC to COUNTY ECC, (this is a ROSS business practice). South OPS will go direct to COUNTY ECC for Rio Bravo Interagency Hot Shot Crew as needed to meet GACC type 1 crew rotations. All other orders for COUNTY resources will go to CCICC in an effort to send federal resources first to federal incidents outside of the areas of the agreement. Name requests for department personnel will follow California and National mobilization guide lines. ROSS business practices now allows South OPS to order department resources by placing the request with CCICC and then to ECC for processing. CCICC must be directed by South OPS to send ROSS orders for department resources to ECC prior to doing so.

REIMBURSEMENT RATES AND METHODOLOGY (aviation)

Federal Excess Property Program (FEPP) Equipment

Under the FEPP program, FEPP rates apply when federal property is loaned to the State Forester, who may place it with local fire departments to improve local fire programs. If this loaned federal property is used on a Forest Service incident, the Department will only charge the Forest Service operating costs that include maintenance, fuel, oil, etc. Charges may not include amortization, depreciation, replacement costs, modification, start-up costs, or related charges.

Aircraft

Flight and stand-by rates for aircraft will be developed, agreed to in advance, and published annually herein, utilizing the rates and/or methodology utilized by the California Department of Forestry and Fire Protection (CAL FIRE). Assistance by Hire rates and reimbursements for aircraft will be based on the following guidelines:

1. Fixed Wing

Reimbursements will be based on aircraft rate which includes pilot costs. The Air Tactical Group Supervisor ("ATGS") will be itemized separately. ATGS Stand-by rates will be determined based on personnel costs.

2. Helicopter

Reimbursement will be based on actual cost to the county which includes pilot costs. Aircraft Mechanic, Helitack crew with Helitender, Fuel Truck and chase vehicle (e.g. 1-Ton Pickup) will be itemized separately. Flight Crew and Crew Carrying Vehicle (CCV) will also be itemized separately.

WHERE TO SEND REIMBURSEMENT INVOICES

Invoices for services under this agreement must be sent to the following addresses as appropriate. This address supersedes any invoice mailing address which may be reflected in the existing cooperative agreement.

Invoices for services under this agreement must be sent to:

U.S. Forest Service	Department
USDA FOREST SERVICE SEQUOIA NATIONAL FOREST CCICC 2750 Yowlumne Suite B Porterville CA 93257 559-782-3120 FAX: 559-781-3320 sjphillips@fs.fed.us	KERN COUNTY FIRE DEPARTMENT 5642 Victor Street Bakersfield CA 93308 661-391-7025 FAX: 661-391-7921 mcody@co.kern.ca.us

ITEMS NOT REIMBURSABLE

The following items are not reimbursable in the execution of this Agreement and are considered standard personal support supply/equipment.

- Incident position support kits
- Calculators
- Computers
- Printers
- GPS units
- Cell phones (except as provided below)
- Personal telephone charges
- Support items normally available in Supply Unit, e.g. tents, sleeping bags, pads, water coolers, etc.

Costs of agency cell phones in excess of normal monthly charges are reimbursable when supported by cell phone provider bills.

In case of damage a claim could be filed and or S number given for items listed above

DURATION OF ASSIGNMENTS

Consideration must be given to the health and safety of personnel when assigned to fires of long duration. It is agreed that duration of assignments is dictated by each Party's policy. Extension of assignments beyond the Supporting Party's policy may be requested. It is the responsibility of the Protecting Party to request relief personnel in advance of the Supporting Party's policy time limit. The Protecting Party is further responsible for the transportation costs of moving personnel to the fire and returning those relieved personnel back to their home stations. In all cases, the Department and Federal Agencies agree that their Incident Commanders will release suppression resources to their primary mission responsibilities as soon as priorities allow. The National Wildfire Coordinating Group (NWCG) has established guidelines for the length of assignments for resources and personnel who accept out of state assignments. Personnel who accept assignments out of the state are expected to adhere to the guidelines identified by NWCG. For incidents within the state, there is a required 7 day minimum commitment. Both Parties agree to honor the minimum length of assignments guidelines.

REST AND RECUPERATION

The National Wildfire Coordinating Group (NWCG) establishes Rest and Recuperation (R & R) guidelines that govern R & R on all Federal incidents. These guidelines may change throughout the year depending on fire activity and physical condition of fire resources. Department personnel assigned to a Federal Agency incident may be given R & R during the incident in which case the R & R is in pay status and charged against the incident. However, if the Department wishes to grant their personnel R & R upon their return to home, the R & R is not compensable under the terms of this agreement.

AIR BOTTLE SUPPORT

The Department agrees to refill breathing apparatus bottles when requested by the Federal Agencies subject to compliance with all laws and policies pertaining to breathing apparatus.

NON-WILDFIRE INCIDENTS

The Department has jurisdictional responsibility for all non-wildfire emergencies within its protection area even when these areas include Federal DPA. The only exceptions are for those emergency incidents under the jurisdiction of the California Highway Patrol, County Sheriff, California Department of Fish & Game and the U.S. Coast Guard.

FIRE PREVENTION

JOINT PRESS RELEASES Develop joint press releases on cooperative fire protection issues to ensure that the interests of both Parties are adequately addressed.

SMOKEY BEAR PROGRAM The Parties will cooperate in the delivery of Smokey Bear programs.

LOCAL EDUCATION PROGRAMS The Parties agree to cooperatively conduct local school and other fire prevention education programs.

FIRE PREVENTION SIGNS Coordination and placement of fire prevention signs should be coordinated by both Parties in order to prevent duplication of effort and sending mixed messages. This is especially important for fire danger rating signs.

LOCAL EVENTS The Parties agree to cooperatively conduct fire prevention programs at local community events.

FIRE INVESTIGATION - All agencies will cooperate jointly to investigate wildfires for the purpose of determining fire cause, issuance of citations, and recovery of costs. Each agency will provide personnel and equipment as appropriate. A coordinated joint cost recovery is authorized with pro-rata apportionment of settlements provide for each incident involved. The Code of Federal Regulations, State of California Penal Code, and Public Resources Code will be applied appropriately for incidents that occur on public lands.

BURNING AND CAMPFIRE PERMITS

In accordance with current instructions, permits for campfire (CDF form LE-63), dooryard premises burning (CDF form LE-62), and other burning (CDF form LE-5) (except vegetation management program and brush land conversion burning (CDF form LE-7) on State Responsibility lands in Federal Agency DPAs will be issued by the Federal Agency or local fire protection district personnel authorized to do so by the Director of CDF. If both Parties' personnel are authorized to issue campfire and burning permits by CDF, both Parties agree to issue burning and campfire permits for each other's DPAs. Both Parties agree to notify one another when burn permits are issued. Fire Restrictions, Red Flag or other situations that may affect the safe execution of campfire and/or burn permits will be shared by each Party.

NON-FIRE PROJECT USE OF RESOURCES

Each of the Parties may jointly conduct appropriate mutual interest projects such as prescribed burns and facility/compound maintenance. Any shared cost or reimbursement will be governed in accordance with a Supplemental Project Agreement (See Exhibit L) signed by each Party prior to the start of the project.

WILDLAND FIRE DECISION SUPPORT SYSTEM (WFDSS)

Forest Service policy requires the use of "Wildland Fire Decision Support System" (WFDSS) for all STAT fires on or threatening Federal Agency administered lands. In Unified Command situations the Federal Agencies will include the Department's input into the development of control objectives, strategy and priorities.

SUPPRESSION AND DAMAGE COLLECTION

The Department and the Federal Agencies reserve the right to pursue independent and separate courses of litigation and cost collection for suppression and damage on the fires that affect both Parties. Any costs recovered as a result of independent litigation will not be subject to apportionment with the other affected Party. Whenever collections that result from joint legal action have the effect of reducing next expenditures of either Party to accomplish services provided for in this Agreement, then such collections may be reported and shared proportionately, after deducting the cost of collection.

REPAIR OF SUPPRESSION ACTIVITY DAMAGE

Repair of suppression related activity damage (e.g., spreading of dozer berms, installations of water bars, minor road repairs, minor fence repair, etc.) will normally be done by the Party with direct protection responsibility for the fire as an integral part of overhaul/mop-up. Any rehabilitation beyond this level may be the responsibility of the landowner.

MAPS TO SUPPORT ANNUAL OPERATING PLAN

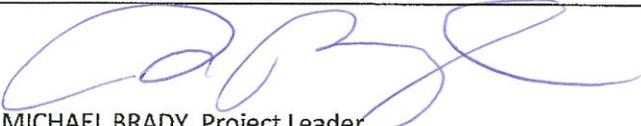

On an as needed basis, maps needed to support this AOP will become attachments to the AOP. These may include the DPA boundary, fire protection facilities by Party and location, pre-planned "Mutual Aid" initial attack response areas, "Mutual Aid Move-up and Cover" facilities or special management consideration areas.

POSSESSION OF AGREEMENT AND AOP ON INCIDENTS

On incidents, the Supporting Party shall furnish the Protecting Party, upon demand, a signed copy of the Agreement and current AOP.

APPROVAL:

IN WITNESS WHEREOF, the Parties have executed this Annual Operating Plan as of the last date written below:
