

**Bankhead National Forest Liaison Panel  
Meeting Summary  
Herbicide Workshop  
August 10, 2013**

An herbicide workshop was held on August 10, 2013 at the Moreland Community Center. Approximately 20 individuals attended the workshop. The purpose was to learn about silvicultural uses of herbicides and discuss options for herbicide use on Bankhead, specifically for restoration of shortleaf pine woodlands and oak woodlands.

Copies of presentations are available by contacting Allison Cochran at the Bankhead National Forest, 205-489-5111 or [jacochran@fs.fed.us](mailto:jacochran@fs.fed.us)

The agenda is included below.
