File Code: 2340

Date: August 29, 2013

Dear Prospective Offeror:

This is to notify you that an additional correction was made to the Bam IRTC Stewardship Project Advertisement.

Page 63a of Contract Part 3 – *Specifications Pursuant to K-G.9# - Stewardship Projects* currently specifies in the project description that the stewardship project will occur after timber harvest.

Please disregard this statement as it is not the intent of the Forest Service to specify when the work shall occur, but rather specify in your technical proposal when and how you will complete the work to best achieve the desired outcome.

If you have any questions you may contact me at 541-947-6249.

Sincerely,

Judd Lehman
Contracting Officer
