Re: Camp Stewardship Project

Tahoe National Forest

To Prospective Bidders:

The purpose of this letter is to correct two mapping errors on the Camp Stewardship Project Sample Contract Area Map. The corrections are as follows:

- 1) Decommission Road Segment labeled C180810-11 on the Sample Contract Area Map should be labeled C180810-10 as stated in the Sample Contract under K-G.9# Project Numbers 009, and in the Bid Form and Prospectus under Mandatory Stewardship Work Items 009.
- 2) Unit 232 is listed twice on the Sample Contract Area Map. Unit 232 located directly south of unit 12 is a natural timber stand and is referenced in the Subdivision Requirements, Sample Integrated Resource Contract, and Prospectus as Unit 17. Unit 232 directly east of unit 227 is a plantation and is correct on the Sample Map, Contract, and Prospectus.

Corrections to the map will be made upon award of the contract. It should be noted that these corrections do not affect the Forest Service advertised volume or value of the sale. Sealed bids will still be received at the Forest Supervisor's Office at 631 Coyote Street, Nevada City, CA 95959 until 10:30 am local time, on September 9, 2013.

ELAINE K. GEE
Contracting Officer
